Definitions

The following terminology is used throughout this document:

Collection Sites	Community pharmacies registered in the HPSA programs to collect unused and/or expired Pharmaceuticals and used Medical Sharps returned from the public.
Pharmaceuticals	<p>Products sold directly to consumer and include:</p> <ul style="list-style-type: none"> • Prescription drugs • Non-prescription drugs • Natural health products
Member	Brand-owner/steward/producer who is a member of the Health Products Stewardship Association (HPSA).
Medical Sharps	<p><i>Ont. Reg. 298/12</i> - "A needle, safety engineered needle, lancet or other similar instrument that is designed to puncture the skin of individuals or companion animals for medical purposes and that is sold to consumers in Ontario, whether it is sold by the producer of the sharp or by any another person, and includes anything affixed to the sharp, including a syringe"</p> <p>For the purpose of the Ontario Sharps Collection Program (OSCP) Plan, a medical sharp shall be generally defined as</p> <ol style="list-style-type: none"> a. Infusion sets with needles attached. b. Lancets, including safety lancets. c. Needle tips. d. Needles, including safety needles. e. Pen only with needle attached. f. Pen needles. g. Prefilled cartridges only with needles attached. h. Pre-filled syringes only with needles attached. i. Safety pens only with needles attached. j. Syringes only with needles attached.
Natural Health Products	<p>Under the <i>Natural Health Products Regulations</i>, natural health products (NHPs) are defined as:</p> <ul style="list-style-type: none"> • Vitamins and minerals • Herbal remedies • Homeopathic medicines • Traditional medicines such as traditional Chinese medicines • Probiotics • Other products like amino acids and essential fatty acids <p>NHPs must be safe to use as over-the-counter products and do not need a prescription to be sold.</p>

Non-prescription Drugs	<p>Non-prescription drugs do not require a prescription of a practitioner under Section C.01.040.03 of the <i>Food and Drugs Regulations</i> in order to be sold and are not listed in the <i>Prescription Drug List</i> established under Section 29.1 of the <i>Food and Drugs Act</i>.</p> <p>Examples include:</p> <ol style="list-style-type: none"> 1) A drug available from a pharmacist but does not require a prescription. These are the drugs located in the area of the pharmacy "behind the counter", where there is no public access and no opportunity for patient self-selection or 2) A drug which does not require a prescription and is available for self-selection from the area of the pharmacy under the direct supervision of the pharmacist or 3) A drug that may be purchased from any retail outlet (such as a grocery store)
OMRP	Ontario Medications Return Program
OSCP	Ontario Sharps Collection Program
Prescription Drugs	A drug requiring a prescription for sale in Canada
Regulation	Collection of Pharmaceuticals and Sharps – Responsibilities of Producers – 298/12 – Environmental Protection Act
Producer	Means a brand owner or first importer under HPSA membership criteria

Executive Summary

Since 2013, the Health Products Stewardship Association (HPSA) has been administering the Ontario Medications Return Program (OMRP) for Pharmaceuticals (prescription drugs, non-prescription drugs and natural health products) as well as the Ontario Sharps Collection Program (OSCP) for Medical Sharps that are sold in the province of Ontario through the "consumer/residential" waste stream.

These programs are operated under the principles defined by Ontario Regulation 298/12 *Collection of Pharmaceuticals and Sharps – Responsibilities of Producers*, which is Ontario's first and only Extended Producer Responsibility regulation created under the *Environmental Protection Act* (EPA).

The OMRP and OSCP are designed to ensure that collection sites are available to all municipalities of the province so that any unused and/or expired Pharmaceuticals and used Medical Sharps returned by the public can be properly collected, packaged, handled, transported and disposed of in a safe, compliant and environmentally responsible manner.

2020 has been a difficult year due to the pandemic. Although collected weights have decreased from 2019 (-7% for Pharmaceuticals and -10% for Medical Sharps), the collection network remained strong: In 2020, a total of 4,146 Ontario retail pharmacies or 91.2% of total accredited pharmacies in Ontario were registered as HPSA collection sites.

HPSA would like to express its gratitude to the pharmacy community for supporting both of these collection return programs during these challenging times.

I. 2020 HPSA Members

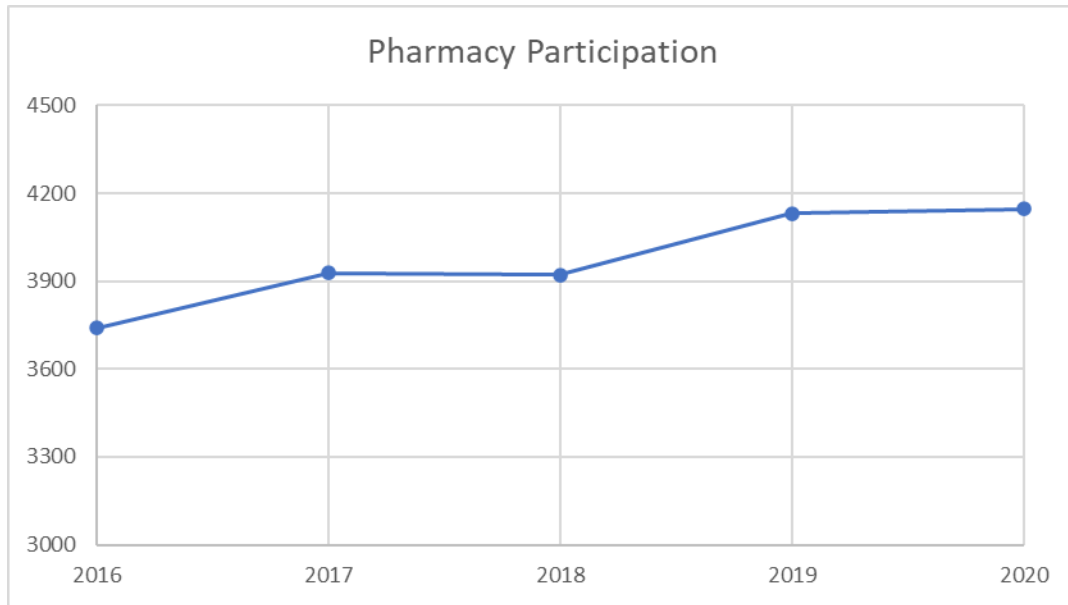

Section 9 (2) 1 – *The name of each producer on whose behalf the report is prepared.*

- The list of producers/members for Pharmaceuticals is attached in [Appendix 1](#).
- The list of producers/members for Medical Sharps is attached in [Appendix 2](#).
- Under Regulation 298/12, producers are required to have a link on their website that takes consumers to the HPSA website where information on the OSCP and OMRP can be found. A list of HPSA producer/member website links can be found in [Appendix 5](#).

II. 2020 Collection Locations

Section 9 (2) 2 - *The number of collection locations and the location of each of the collection locations at which collection of the designated material of the producers was provided for by all of the producers and a description of any changes that occurred with respect to the number and location of collection locations from the previous calendar year.*

- The collection sites for both the OMRP and the OSCP are community pharmacies (listed in [Appendix 6](#)).
- Each HPSA collection site has signed a Collection Location Agreement or CLA detailing procedure for collection, handling and storage of Pharmaceutical and Medical Sharps received from the public.
- In accordance with Section 4 of the Regulation, HPSA ensured that the number of collection locations is at minimum equal to 90% of pharmacies in Ontario, as of October 1 in the preceding calendar year. The Ministry of the Environment Conservation and Parks website posted 4,543 as the number of registered pharmacies that were eligible to participate in the OSCP and OMRP.
- As of December 31, 2020, 4,146 active pharmacy collection locations in Ontario were registered with HPSA and had returned designated material in the last 12 months.
- In the previous calendar year, the number of registered and active retail pharmacies participating in HPSA's stewardship programs was 4,132. 2020 saw an increase of 14 retail pharmacies participating in the HPSA programs versus the previous year.
- The participation rate of total eligible collection locations in the combined programs in Ontario was 91.2% at the end of 2020.
- In accordance with Section 4 (2), there is at least one HPSA collection location in every municipality in Ontario.

Section 9 (1) 6 - A description of any actions taken by the producer during the previous calendar year that exceeded the actions required for the purposes of section 4, in order to provide for the collection of the designated material of the producer.

HPSA contacted by mail and e-mail all non-registered, eligible retail pharmacies to introduce the OMRP and the OSCP and to provide direction and information about the programs. HPSA's outreach is between 5 to 10 pharmacies a day.

4.3 A producer of a pharmaceutical or sharp shall ensure that at each collection location at which the producer provides for collection of the designated material of the producer, the collection is

- (a) available free of charge to consumers
- b) not subject to any limitations with respect to the quantity of the designated material of the producer that a consumer may bring for collection; and
- c) if the collection location is in a pharmacy in respect of which a certificate of accreditation is in effect under section 139 of the Drug and Pharmacies Regulation Act, available during the business hours of the pharmacy.

- HPSA delivery and pickup services are provided to all registered collection locations and the public at no cost.
- HPSA take back programs generate extra retail traffic at participating pharmacies.
- Guidelines are reviewed by pharmacy staff upon registration and HPSA develops specific brochures for pharmacy staff.

III. Overview of the Collection and Disposal Process

Section 9 (1) 4 - A description of how the designated material of the producer collected at collection locations was handled and how it was disposed of during the previous calendar year.

- Unused and/or expired Pharmaceuticals collected through the OMRP are packaged in lined, reusable, 60L pharmaceutical HPSA branded waste containers (MRP containers) at the collection locations.
- When ready for shipment, collection locations tie off the container liner, secure the lid to the base and arrange for shipment. The service provider contracted by HPSA (Stericycle, ULC or ECS Cares) transports the waste to an HPSA approved disposal site where the Pharmaceuticals and any associated packaging are incinerated.
- Once emptied, the MRP containers are cleaned and inspected for reuse; every year an average of 11% are deemed unsuitable for further use.
- The approved disposal facility is managed by Stericycle ULC.
- Used biomedical sharps collected through the OSCP are received from consumers in sharps containers labelled with a Biohazard symbol. At the collection location, these sharps containers are packaged in a secondary containment packaging in the form of a corrugated cardboard box with the universal Biohazard symbol on the outside and lined with a 2 mm plastic bag. When ready for shipment, collection locations tie off the box liner, seal the box and arrange for shipment. The service provider contracted by HPSA (Stericycle, ULC or ECS Cares) transport the boxes of biomedical sharps to an HPSA approved disposal site where the boxes of biomedical sharps/sharps containers are autoclaved. The approved disposal facility is managed by Daniels Healthcare.
- Used cytotoxic sharps collected through the OSCP are received from consumers in sharps containers labelled with a cytotoxic symbol. At the collection location, these sharps containers are packaged in lined, corrugated cardboard boxes with cytotoxic labelling on the outside. When ready for shipment, collection locations tie off the box liner, seal the box and arrange for shipment. The service providers contracted by HPSA (Stericycle, ULC. or ECS Cares) transport the boxes of cytotoxic sharps to an HPSA approved disposal site where the boxes of cytotoxic sharps and sharps containers are incinerated. The approved disposal facility is managed by Daniels Healthcare.

IV. 2020 Collections

A. Pharmaceuticals

Section 9 (2) 3 - *The total weight of all of the following that was collected at the collection locations during the previous calendar year:*

- i. *Pharmaceuticals.*
 - ii. *Containers described in paragraph 3 of section 2, excluding any containers that were recycled.*
- In 2020, a total of 19,040 MRP containers were supplied to the HPSA collection network and 287,360.8 kilograms of Pharmaceuticals were collected.
 - In 2020, 272,654.8 kilograms of Pharmaceuticals were safely disposed by Stericycle ULC in Ontario (note: the delta between tonnage collected and tonnage disposed is the total weight of the reusable MRP containers).

Table 1 provides a summary by region of the total weight of Pharmaceuticals collected through the 4,146 collection locations in 2020.

Table 1 - Program Performance – Report on Collection of Pharmaceuticals by Quarter

V. Public Education Materials and Campaigns

A. Collection Locations

Upon registration, all HPSA collection sites received a package that contains the following consumer related educational materials:

- Rack cards titled "Take It Back" and bookmarks titled "Don't throw it out" provide information on how the public should safely store and handle unused and expired Pharmaceuticals in the home (see [here](#)).
- Rack cards titled "Take It Back" and bookmarks titled "Don't throw it out" provide information on how the public should safely store and handle used Medical Sharps in the home, the use of sharps containers and how sharps are disposed of (see [here](#)).
- A Pharmacist's Guide – Medications Return Program can be viewed [here](#).
- A Pharmacist's Guide –Sharps Collection Program can be viewed [here](#).

In addition, every year, each collection site receives a physical copy of the most up to date list of all HPSA registered collection locations in Ontario. This mass mailout usually occurs in the spring.

Promotional material order forms are available online [here](#), enabling participating pharmacies and outside organizations such as municipalities and doctors' offices to order educational materials to be made available to the public. In 2020, HPSA sent over 86,600 brochures and bookmarks to pharmacies, municipalities, doctors' offices/hospitals and other partners for public distribution.

B. Website and Social Media

In 2020, HPSA continued its website "refresh" with an emphasis on regularly updating its Frequently Asked Questions section and improving the website's functionalities to better support prospective and existing collection sites. HPSA added a news banner to the website's front page to make information more accessible for consumers and pharmacies. The news banner is updated regularly with the latest news for the public and other stakeholders.

HPSA is also tracking the ranking and search engine optimization of the webpage. Currently, the webpage has organic keywords that take consumers directly to HPSA webpage: sharps container, approved sharps container, "can I return medication to pharmacy", returning medication.

One of HPSA's bilingual website's great functionality is its participating retail pharmacy locator tool for consumers, which allows visitors to enter their postal code to access a drop-down menu that provides the address and contact information of the nearest collection site. The searchable Collection Site Finder is at www.healthsteward.ca.

HPSA continues to post and keep its Facebook account current, using this social media platform to share best practices, HPSA videos, events (National Drug Drop Off Month), article and events

from other health partners (such as the Community Pharmacist Network, ISMP or Drug Free Kids Canada).

As HPSA sees the value of growing organization through social media, it is now present on additional social media platforms such as LinkedIn and Twitter. HPSA places efforts in growing the follower base and engaging with the audience. Industry-related organizations and professionals as well as consumers are present on the platforms mentioned above and this is reflected on post impressions and engagement.

28 day summary with change over previous period

HPSA's Twitter account is regularly mentioned and retweeted by various audience groups, from pharmacists to consumers and has an engagement rate of 3.7 %, which is fairly high for the industry.

Top mention earned 16 engagements

ESSEX	9,700
KINGSVILLE	9,600
LEAMINGTON	10,100
WATERLOO REGION	189,000
WINDSOR	85,000

D. National Campaigns

1) Institute for Safe Medication Practices Canada

In 2020, HPSA continued to work closely with the Institute for Safe Medication Practices Canada (ISMP), on empowering patients, families and healthcare providers with knowledge about risks of unused consumer medications and the disposal mechanisms available to them; on standardizing approaches to the disposal of unused medications in the home, using identified preferred practices; and on integrating messaging about medication returns into patient education materials in order to engage patients and families, and encourage use of returns programs.

ISMP Canada used a variety of materials, messages and platforms to reinforce the message that safe management and disposal of unused, expired or unwanted products is important for patient safety, community safety *and* has a positive impact on our environment. Examples include:

- An ISMP Canada safety bulletin, and consumer newsletter, included educational messages about safe storage and disposal practices and medication returns programs.
- Information about safe storage and disposal of medications was included in a Digital Poster Campaign in 300 doctors' office waiting rooms across Canada. The information card reached an audience of more than 6 million people, with more than 23 million impressions, over a 12-month period.

Below an overview of HPSA and ISMP Canada collaborative work undertaken in 2020.

**Health Products Stewardship Association (HPSA) and ISMP Canada Collaborative Work 2020**

Knowledge translation of safe storage and disposal of home medications with the aim of increasing uptake of returns programs

 <p>Leading Operational Practice Recognition Canadian Home Care Association identified HPSA programs in an evidence synthesis.</p>	 <p>Best Practice Recognition Canadian Journal of Pain publication identified the Opioids for pain after surgery patient resource as a best practice example in a Consensus Statement. The resource includes guidance for unused consumer medications.</p>	 <p>Medical Student Education Association of Faculties of Medicine of Canada education module for medical students includes the HPSA interactive map for locations that accept returns.</p>
 <p>Patient Resource CADTH helped distribute the opioid agonist therapy safety resource that includes guidance for unused consumer medications.</p>	 <p>Consumer Newsletter Provides information sent to 23,000 contacts about emerging issues during COVID-19 and includes a link to the HPSA website that shares supportive guidance from Health Canada for post-consumer returns.</p>	<p>ISMP Canada/HPSA together reached the following National Organizations in 2020: Canadian Deprescribing Network Canadian Patient Safety Institute Canadian Pharmacists Association Canadian Home Care Association Canadian Society of Hospital Pharmacists Diabetes Canada IDS Canada Patients Canada Patients for Patient Safety Canada Parachute Canada</p>

2) Drug Free Kids Canada

HPSA's partnership with Drug Free Kids Canada continued in 2020. The non-profit has been drawing attention to prescription drug abuse and the need to keep children safe by calling on Canadians to drop off unwanted Pharmaceuticals at their local pharmacies for safe disposal. In addition to TV, radio, digital and print executions, an array of social executions and shareable content, including lighthearted GIFs were developed and deployed in daily posts.

The "Pill Fairy Campaign" 2.0 - 2020

National Drug Drop Off (NDD) Month – August 3 – Sept 01, 2020

- Total Users 11,738 (increase of 38% from previous year)
- Total Website Sessions: 12,954 (increase of 35% from previous year)
- 432 sessions per day during National Drug Drop Off Month

Campaign extended period - August 3, 2020 – January 31, 2021

- Total Users 110,843 (58% increase from previous year)
- Total Website Sessions: 125,840 (691 sessions/day)
- Total page views: 172,425

Campaign related pages – (Home Page /Return your Meds page)

- Total 19,405 views - 106 views of pages related to the campaign per day
- Campaign related pages - 12% of total site
- Pill Fairy Landing page rating = #13 – 1.5% of users come to site thru this landing page.
- 807 users clicked on locate pharmacies
- 255 users clicked the Health Steward drop off map

VI. Auditor's Report

Section 9 (3) – The report shall include an opinion from a licensed public accountant confirming the accuracy of....

(b) in the case of a report prepared on behalf of more than one producer, the information referred to in paragraphs 2 and 3 of subsection (2), other than the information referred to in paragraphs 5 and 6 of subsection (1).

A full report from a licensed public accountant is included in [Appendix 3](#) confirming the accuracy as per (b) above.

As per Section 9 (4) of the Regulation, the 2020 Annual Report will be posted on the HPSA website [there](#).

Appendix 3 - Auditor's Report (Opinion from a Licensed Public Accountant)

INDEPENDENT PRACTITIONER'S REASONABLE ASSURANCE REPORT ON PARAGRAPHS 1, 2 AND 3 OF SUBSECTION 9 (1) OF THE ONTARIO REGULATION 298/12

To the Ministry of the Environment, Conservation and Parks

We have undertaken a reasonable assurance engagement of the Health Products Stewardship Association management's accompanying statement for the year ended December 31, 2020, comprising the information required by paragraphs 1, 2 and 3 of subsection 9 (1) of the Ontario Regulation 298/12 with respect to the responsibilities of producers arising from the collection of pharmaceuticals and sharps.

Management's Responsibility

Management is responsible for the preparation of the statement comprising the information required by paragraphs 1, 2 and 3 of the subsection 9 (1) in accordance with applicable criteria set out in Note 1 of this report. Management is also responsible for selecting the applicable criteria used. This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation of management's statement that is free from material misstatement, whether due to fraud or error.

Our Responsibility

Our responsibility is to express a reasonable assurance opinion on management's statement based on the evidence we have obtained. We conducted our reasonable assurance engagement in accordance with Canadian Standard on Assurance Engagements 3000, *Attestation engagements other than audits or reviews of historical financial information*. This standard requires that we plan and perform this engagement to obtain reasonable assurance about whether management's statement is free from material misstatement.

Reasonable assurance is a high level of assurance, but is not a guarantee that an engagement conducted in accordance with this standard will always detect a material misstatement when it exists. Misstatement can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the decisions of users of our report. The nature, timing and extent of procedures selected depend on our professional judgment, including an assessment of the risks of material misstatement, whether due to fraud or error, and involve obtaining evidence about the preparation of management's statement in accordance with the applicable criteria.

A reasonable assurance engagement also includes assessing the suitability in the circumstances of management's use of applicable criteria, applied as explained in Note 1 of this report, as the basis for preparing information required by paragraphs 1, 2 and 3 of the subsection 9 (1); evaluating the appropriateness of quantification methods and reporting policies used, and the reasonableness of estimates made by management; and evaluating the overall presentation of the management statement.

Chartered Professional Accountants

Cabinet indépendant affilié à
Independent firm affiliated to

We believe the evidence we obtained is sufficient and appropriate to provide a basis for our opinion. Relevant information required by paragraphs 1, 2 and 3 of the subsection 9 (1) is set out in the management's accompanying statement.

Our Independence and Quality Control

We have complied with the relevant rules of professional conduct / code of ethics applicable to the practice of public accounting and related to assurance engagements, issued by various professional accounting bodies, which are founded on fundamental principles of integrity, objectivity, professional competence and due care, confidentiality and professional behaviour.

The firm applies Canadian Standard on Quality Control 1, *Quality Control for Firms that Perform Audits and Reviews of Financial Statements, and Other Assurance Engagements* and, accordingly, maintains a comprehensive system of quality control, including documented policies and procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements.

Basis of Qualified Opinion

As discussed in Note 1 to the management's statement, quantification is subject to inherent limitation because our assessment of the total weight of all of the pharmaceuticals and sharps that were collected at the collection locations and the total weight of the pharmaceuticals and sharps that were incinerated is strictly based on the information provided by the collection service providers.

Qualified Opinion

In our opinion, except for the effects of the matters described in the Basis for Qualified Opinion paragraph, management's statement for the year ended December 31, 2020, is prepared, in all material respects, in accordance with the applicable criteria.

Purpose of Statement

Management's statement has been prepared to report to the Ministry of the Environment, Conservation and Parks and is not intended to be and should not be used for any other purpose.

HEALTH PRODUCTS STEWARDSHIP ASSOCIATION

NOTE

DECEMBER 31, 2020

3

1. MANAGEMENT STATEMENT

The following steps were applied to the assessment of the location of collection facilities, in accordance with the Act.

- From the Ontario College of Pharmacist website, we verify the status of each of the Collection Facilities of the Association. We confirm that all the Collection Facilities are eligible as at December 31, 2020;
- The Association's listing stated 4,146 pharmacy collection locations in Ontario;
- The Association confirms the number of Collection Facilities published on the Ministry of the Environment, Conservation and Parks website. The number of Collection Facilities is 4,543;
- Therefore, as of December 31, 2020, 91.2% of eligible pharmacy collection locations in Ontario are registered with the Association.

The following steps were applied to the assessment of the total weight of all of the pharmaceuticals and sharps that were collected at the collection locations during the year ended December 31, 2020.

- Upon reception of monthly invoices from collection service providers (Stericycle and ECS Cares Incorporated), the following data is recorded in CRM software:
 - a. Invoice number;
 - b. Date of service;
 - c. Manifest number (BOL) that confirms that the collection service was rendered;
 - d. Name of site service;
 - e. Location of the collection service;
 - f. Quantity of items collected;
 - g. Description of what was collected (Rx/Sharps);
 - h. Total weight collected for each item;
- Using the CRM software, the Association generates a report indicating the total weight collected by province for a specific period;
- To confirm total weight collected, the Association compares weight collected from Stericycle and ECS Cares Incorporated with disposal charges (incineration) provided by Stericycle and Daniels Sharpsmart Canada Ltd. In 2020, a total of 287,360.80 kilograms of pharmaceutical waste was collected at the collection location;
- In 2020, a total of 308,376.90 kilograms of sharps waste was collected at the collection locations.

As established by management, there is an unavoidable risk of material misstatements due that we consider it impractical to introduce surveillance controls on the data produced by the collection service providers (Stericycle, ECS Cares Incorporated and Daniels Sharpsmart Canada Ltd) and on their control activities. Our statement on the total weight of pharmaceutical waste and sharps waste is strictly based on the information provided by the collection service providers.

Appendix 4 - Samples of HPSA Materials

Infographic for consumers on safe disposal of medical sharps

Safely Return Used Medical Sharps at Participating Pharmacy

COLLECTION LOCATION PHARMACY

Visit local participating pharmacy to get sharp container free of charge

WHAT IS ACCEPTED

- Needles and Syringes
- Auto-Injectors
- Lancets

WHAT IS NOT ACCEPTED

- Glucose Meters
- IV Bags
- Cotton Swabs

SAFELY RETURN

DO NOT OVERFILL the container; close permanently and return to a participating pharmacy

Find a drop-off location at www.healthsteward.ca

Health Products Stewardship Association

Appendix 4 (continued)- Samples of HPSA Materials

Infographic for pharmacies on Sharps Collection Program

HPSA SHARPS COLLECTION PROGRAM

Important Reminder for Collection Location Pharmacies

1 WHO IS HPSA?

HPSA is a not-for-profit association funded by the health products industry. It operates collection and disposal programs of used medical sharps generated by the public.

2 WHAT IS ACCEPTED?

- Needles and syringes
- Auto injectors
- Lancets

Note: needles and sharps should be in any approved sharp container. Sharps used on companion animals are also accepted.

3 WHAT IS NOT ACCEPTED?

- Sharps from pharmacy operations (Flu Shots)
- Sharp containers returned from clinics or any other institutions
- Sharps returned in bottles and tin cans

4 WHAT DO YOU RECEIVE?

A sharps kit contains of 24 sharps containers, 2 white Outer Packing (flat), 2 yellow liners and cytotoxic labels (If a patient is dispensing chemotherapeutic drugs, you must provide a sharps container with a cytotoxic label).

5 HOW TO ORDER A SERVICE?

Go to HPSA webpage www.healthsteward.ca and locate Service and Supply Request Form under Pharmacists Tab.

6 HOW TO SUBMIT A FORM?

Insert your HPSA ID and fill out all the required information. Submit the form online on the webpage.

7 DELIVERY

Your service provider has been contacted and will arrive within the next 10 business days!
