Definitions

The following terminology is used throughout the document.

Collection Sites	Community pharmacies registered in the HPSA programs to collect unused and/or expired Pharmaceuticals and used Medical Sharps returned from the public.
Pharmaceuticals	Products sold directly to consumers and includes: <ul style="list-style-type: none"> • Prescription drugs • Non-prescription drugs • Natural health products
Member	Brand-owner/steward/producer who is a member of the Health Products Stewardship Association (HPSA).
Medical Sharps	<p><i>Ont. Reg. 298/12</i> - "A needle, safety engineered needle, lancet or other similar instrument that is designed to puncture the skin of individuals or companion animals for medical purposes and that is sold to consumers in Ontario, whether it is sold by the producer of the sharp or by any another person, and includes anything affixed to the sharp, including a syringe"</p> <p>For the purpose of the Ontario Sharps Collection Program (OSCP) Plan, a medical sharp shall be generally defined as:</p> <ul style="list-style-type: none"> a. Infusion sets with needles attached. b. Lancets, including safety lancets. c. Needle tips. d. Needles, including safety needles. e. Pen only with needle attached. f. Pen needles. g. Prefilled cartridges only with needles attached. h. Prefilled syringes only with needles attached. i. Safety pens only with needles attached. j. Syringes only with needles attached.
Natural Health Products	<p>Under the Natural Health Products Regulations, Natural Health Products (NHPs) are defined as:</p> <ul style="list-style-type: none"> • Vitamins and minerals • Herbal remedies • Homeopathic medicines • Traditional medicines such as traditional Chinese medicines • Probiotics • Other products like amino acids and essential fatty acids <p>NHPs must be safe to use as over-the-counter products and do not need a prescription to be sold.</p>
Non-Prescription Drugs	<p>Nonprescription drugs do not require a prescription of a practitioner under Section C.01.040.03 of the Food and Drugs Regulations in order to be sold and are not listed in the Prescription Drug List established under Section 29.1 of the Food and Drugs Act.</p> <p>Examples include:</p> <ol style="list-style-type: none"> 1) A drug available from a pharmacist but does not require a prescription. These are the drugs located "behind the counter"

	<p>where there is no public access and no opportunity for patient self-selection or</p> <p>2) A drug which does not require a prescription and is available for self-selection from the area of the pharmacy under the direct supervision of the pharmacist or</p> <p>3) A drug that may be purchased from any retail outlet (such as a grocery store)</p>
OMRP	Ontario Medications Return Program
OSCP	Ontario Sharps Collection Program
Prescription Drugs	A drug requiring a prescription for sale in Canada
Regulation	Collection of Pharmaceuticals and Sharps – Responsibilities of Producers – 298/12 – Environmental Protection Act
Producer	Means a brand owner or first importer under HPSA membership criteria

Executive Summary

Since 2013, the Health Products Stewardship Association (HPSA) has been administering the Ontario Medications Return Program (OMRP) for Pharmaceuticals (prescriptions drugs, non-prescription drugs and natural health products) as well as the Ontario Sharps Collection Program (OSCP) for Medical Sharps that are sold in the province of Ontario through the "consumer/residential" waste stream.

These programs operate in accordance with the principles defined by Ontario Regulation 298/12 *Collection of Pharmaceuticals and Sharps – Responsibilities of Producers*, which is Ontario's first and only Extended Producer Responsibility regulation created under the Environmental Protection Act (EPA).

The OMRP and OSCP programs' design ensures that any unused and/or expired Pharmaceuticals and used Medical Sharps returned by the public can be properly collected, packaged, handled, transported, and disposed of in a safe, compliant, and environmentally responsible manner. The programs are accessible to consumers in all municipalities across Ontario; in 2021, the network of collection sites represented **93.62%** of all accredited pharmacies.

Compared to 2020, the collected weight of medications and medical sharps increased in 2021, partially due to lifting pandemic restrictions. Collected pharmaceuticals has increased by 10.9% compared to 2020, medical sharps by 32.3%.

The 2021 annual report also reviews the consumer knowledge survey on the safe disposal of medications and medical sharps and communications strategy for building consumer knowledge and HPSA brand.

HPSA acknowledges the tremendous support of the pharmacy community in the OMRP and OSCP programs and is grateful for the pharmacies' important role in protecting the environment and health of Ontarians.

I. 2021 HPSA Members

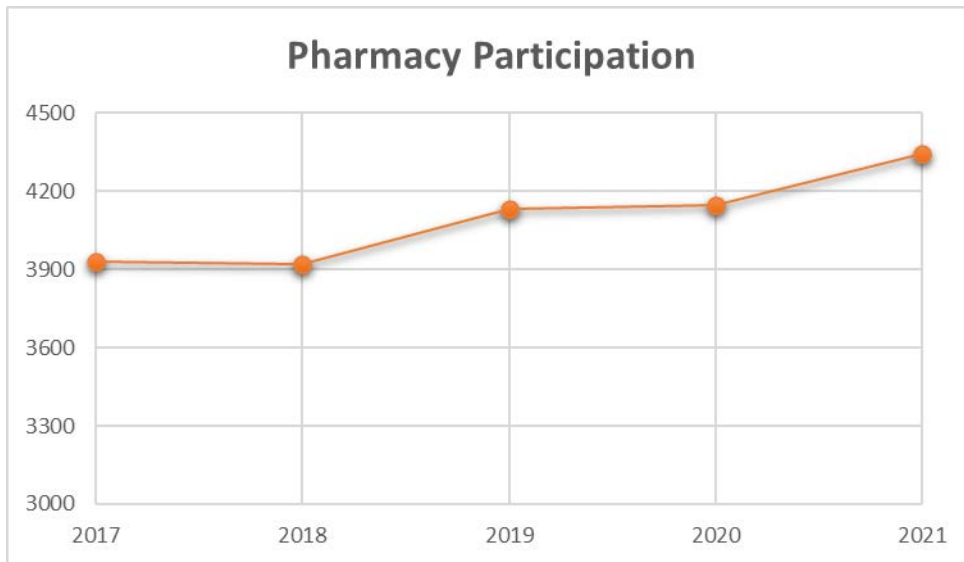

Section 9 (2) 1 – *The name of each producer on whose behalf the report is prepared.*

- The list of producers/members for Pharmaceuticals is attached in [Appendix 1](#).
- The list of producers/members for Medical Sharps is attached in [Appendix 2](#).
- Under Regulation 298/12, Producers are required to have a link on their website that takes consumers to the HPSA website where information on the OSCP and OMRP can be found. A list of HPSA producer/member website links can be found in [Appendix 5](#).

II. 2021 Collection Locations

Section 9 (2) 2 - *The number of collection locations and the location of each of the collection locations at which collection of the designated material of the producers was provided for by all of the producers and a description of any changes that occurred with respect to the number and location of collection locations from the previous calendar year.*

- The collection sites for both the OMRP and the OSCP are community pharmacies (listed in [Appendix 6](#)).
- Each HPSA collection site has signed a Collection Location Agreement or CLA detailing procedures for collection, handling and storage of Pharmaceuticals and Medical Sharps received from the public.
- In accordance with Section 4 of the Regulation, HPSA ensured that the number of collection locations is at minimum equal to 90% of pharmacies in Ontario, as of October 1 in the preceding calendar year. The Ministry of the Environment Conservation and Parks website posted 4,642 as the number of registered pharmacies that were eligible to participate in the OSCP and OMRP.
- As of December 31, 2021, **4,346** active pharmacy collection locations in Ontario were registered with HPSA and had returned designated material in the last 12 months.
- In the previous calendar year, the number of registered and active retail pharmacies participating in HPSA's stewardship programs was 4,146. 2021 saw an increase of 200 retail pharmacies participating in the HPSA programs versus the previous year.
- The participation rate of total eligible collection locations in the combined programs in Ontario was **93.62%** at the end of 2021.
- In accordance with Section 4 (2), there is at least one HPSA collection location in every municipality in Ontario.

Section 9 (1) 6 - *A description of any actions taken by the producer during the previous calendar year that exceeded the actions required for the purposes of section 4, in order to provide for the collection of the designated material of the producer.*

HPSA contacted, by mail and e-mail, all non-registered eligible retail pharmacies to introduce the OMRP and the OSCP. HPSA also provided direction as well as information about the programs. HPSA's outreach is between 5 to 10 pharmacies a day.

Section 4.3 - *A producer of a pharmaceutical or sharp shall ensure that at each collection location at which the producer provides for collection of the designated material of the producer, the collection is*

(a) available free of charge to consumers

b) not subject to any limitations with respect to the quantity of the designated material of the producer that a consumer may bring for collection; and

c) if the collection location is in a pharmacy in respect of which a certificate of accreditation is in effect under section 139 of the Drug and Pharmacies Regulation Act, available during the business hours of the pharmacy.

- HPSA delivery and pickup services are provided to all registered collection locations and the public at no cost.
- HPSA take back programs generate extra retail traffic at participating pharmacies.
- Guidelines are reviewed by pharmacy staff upon registration and HPSA develops specific brochures for pharmacy staff.

III. Overview of the Collection and Disposal Process

Section 9 (1) 4 - A description of how the designated material of the producer collected at collection locations was handled and how it was disposed of during the previous calendar year.

- Unused and/or expired Pharmaceuticals collected through the OMRP are packaged in lined, reusable, 60 L pharmaceutical HPSA branded waste containers (MRP containers) at the collection locations.
- When ready for shipment, collection locations tie off the container liner, secure the lid to the base and arrange for shipment. The service provider contracted by HPSA (Stericycle, ULC or ECS Cares) transports the waste to an HPSA approved disposal site where the Pharmaceuticals and any associated packaging are incinerated.
- Once emptied, the MRP containers are cleaned and inspected for reuse; 2021 saw a lot less breakage of container than previous years (1%). The 300 MRP broken containers were all recycled into plastic pelets.
- The approved disposal facility is managed by Stericycle, ULC.
- Used biomedical sharps collected through the OSCP are received from consumers in sharps containers labelled with a Biohazard symbol. At the collection location, these sharps containers are packaged in a secondary containment packaging in the form of a corrugated cardboard box with the universal Biohazard symbol on the outside and lined with a 2 mm plastic bag. When ready for shipment, collection locations tie off the box liner, seal the box and arrange for shipment. The service providers contracted by HPSA (Stericycle, ULC or ECS Cares) transport the boxes of biomedical sharps to an HPSA approved disposal site where the boxes of biomedical sharps/sharps containers are autoclaved. The approved disposal facility is managed by Daniels Healthcare.
- Used cytotoxic sharps collected through the OSCP are received from consumers in sharps containers labelled with a cytotoxic symbol. At the collection location, these sharps containers are packaged in lined, corrugated cardboard boxes with cytotoxic labelling on the outside. When ready for shipment, collection locations tie off the box liner, seal the box and arrange for shipment. The service providers contracted by HPSA (Stericycle, ULC. or ECS Cares) transport the boxes of cytotoxic sharps to an HPSA approved disposal site where the boxes of cytotoxic sharps and sharps containers are incinerated. The approved disposal facility is managed by Daniels Healthcare.

IV. 2021 Collections

A. Pharmaceuticals

Section 9 (2) 3 - The total weight of all of the following that was collected at the collection locations during the previous calendar year:

- i. Pharmaceuticals.
- ii. Containers described in paragraph 3 of section 2, excluding any containers that were recycled.

- In 2021, a total of 21,871 MRP containers were supplied to the HPSA collection network, and **318,677.3 kilograms** of Pharmaceuticals were collected.
- In 2021, **304,716.4 kilograms** of Pharmaceuticals were safely disposed by Stericycle, ULC in Ontario (note: the delta between tonnage collected and tonnage disposed can be explained by the variation between the weight captured on the Bills of Lading and the weight on the Certificates of Destruction).

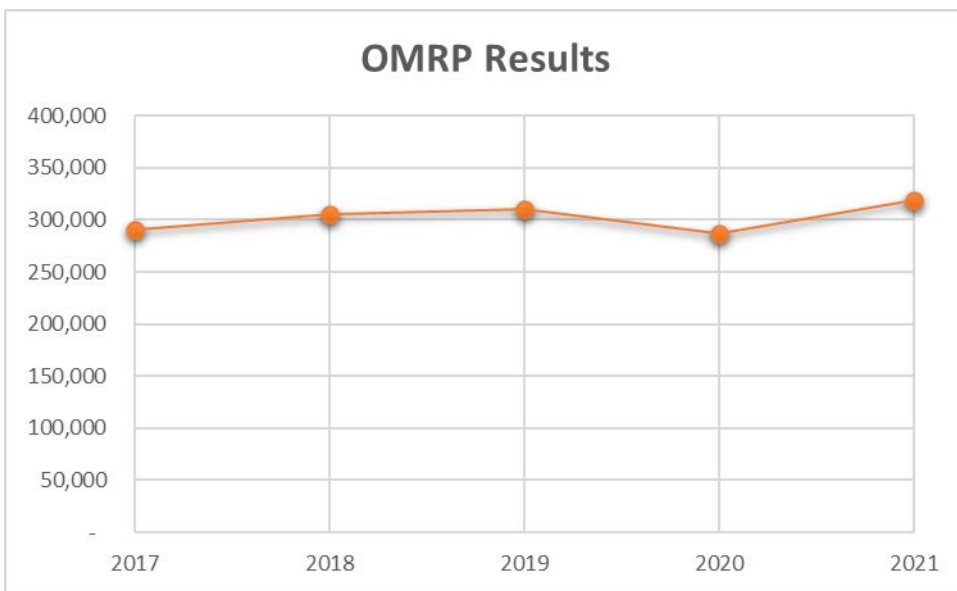

Table 1 provides a summary by region of the total weight of Pharmaceuticals collected through the 4,346 collection locations in 2021.

Table 1 - Program Performance – Report on Collection of Pharmaceuticals by Quarter

Regions	# of Sites	1 st	2 nd	3 rd	4 th	Year Total (kg)

V. Public Education Materials and Campaigns

A. Provincial and National Campaigns

In 2021, to find out how Canadians are disposing of their unwanted medications and used medical sharps, HPSA conducted a consumer behaviour study. The study revealed the following points in consumer awareness:

- In Ontario 66% of those who have unwanted medications at home know the right/safe thing to do.
- 57% of those who have unwanted medications at home know where to return them.
- Pharmacies are the leading source of information, as 60% of those who know where to take unwanted/expired medications learned about it from their pharmacist or drug store.

Knowing the right/safe thing to do is higher in rural/remote locations (82%) and in medium or smaller cities (73%) compared to major urban areas (60%). Also, younger Canadians are less likely to be aware than their older counterparts; 82% of those 55+ prove they know the safe/right thing to do compared to 63% of those 35-54 years and 46% of those 18-34 years.

To expand Canadians' knowledge around the safe disposal of unwanted medications and used medical sharps, HPSA created integrated **earned, social and paid media campaigns**. The objective of the campaigns was not only to educate consumers on the importance of safe storage and disposal of unwanted medications and used medical sharps but also build HPSA's brand awareness.

Earned Campaign

In July 2021, HPSA developed a press release based on the consumer behaviour study and successfully secured an exclusive interview with CTV News Toronto, offering Terri Drover, Director-General of HPSA, to speak about the survey results. Provincial, national journalists and media platforms writing about health were also targeted for the additional coverage.

The campaign received 81 pieces of coverage and 8.26 million media impressions within the first few days of launch.

BENZINGA

ANR – Audio News Release

As a part of the campaign, HPSA organized an Ontario-focused audio news release (ANR). The ANR leveraged data from the consumer survey by highlighting the most critical statistics around Canadians' understanding of safe disposal and included a strong call-to-action to clear out medicine cabinets. The ANR reached various communities across Ontario, such as Hamilton, Kapuskasing, Muskoka and other nationally syndicated stations. In total, 22 outlets were reached with 756,300 impressions.

Organic Social

Within the campaign strategy, the consumers were also targeted through social media pages. Over 20 different organic social posts were published across HPSA's social channels (Facebook, LinkedIn, Twitter and Instagram). The campaign posts earned a total of 6,016 **impressions**, 236 **engagements** and 38 **shares**.

White Papers - Safe Disposal of Medications and Medical Sharps

In 2021, the safe disposal of unwanted medications and used medical sharps were also promoted through HPSA developed consumer and pharmacist-centered white papers published in seven different platforms and magazines.

1. **The Advocate** – This Ontario-based magazine was distributed to 133 First Nations communities, representing approximately 200,000 First Nations citizens.
2. **Health Matters** – This magazine was distributed to First Nations health professionals representing 900,000 people living in 634 First Nations across the country.
3. **Today's Kids** – This national magazine's audience is parents raising kids with disabilities.
4. **Caregiver Solutions** - This national magazine's audience is caregivers.
5. **Canadian Healthcare Network** – This pharmacist-centered white paper was sent through an eDirect message to 38,451 pharmacists with an open rate of 20.27%.
6. **Neighborhood Pharmacies Gazette** – This pharmacist-centered white paper was published in a magazine of one of the largest pharmacy networks in Ontario.
7. **Canadian Foundation of Pharmacy** – This pharmacist-centered white paper was published in a magazine of Canadian Foundation of Pharmacy.

Old meds be gone—safely

Protect your family and the environment with these simple steps to dispose of medications

When pharmacist Rachelle Rocha saw Lillian*, one of her regular customers, approach with a sad smile and a plastic bag full of medications, she knew what had happened. Lillian's father, who had been receiving end-of-life care at home, had passed away.

They spent a few minutes in quiet conversation, then walked to the end of the pharmacy counter where Lillian dumped the contents of the plastic bag into a specially designated bin. The bag contained her father's unused medications, including pain medications, and a few other expired medications, vitamins and creams found in his home.

"As pharmacists we are privileged to be with so many of our patients and their loved ones throughout their life journey. We're also equipped to take in unused and expired medications for safe disposal. It's one less thing you have to worry about,"

What you can do

Bring back the meds

As part of the fight against the opioid crisis, remind patients to return unused medications

Opioid stewardship has become increasingly important during the COVID-19 pandemic. Reminding your patients that they can bring back unused or expired medications is a simple step to help fulfill that role.

"I pay special attention when someone is undergoing treatment for cancer or receiving end-of-life care at home," says Rachelle Rocha, pharmacist and co-owner of Seasons Pharmacy and Culinary, part of the Whole Health Pharmacy Partners group, in Sudbury, Ontario. "First and foremost, this is an opportunity to extend compassion and support. And when the time is right, I gently remind them or their caregivers to bring back any unused medications. In most of these bags there are narcotics and other controlled drugs."

Recent data from the Government of Canada confirm that hospitalizations and deaths due to opioid poisoning have increased since the start of the pandemic. A 2018 study found that one in three opioid-related deaths involved people with

Pharmacies on board

B. Website and Ongoing Social Media

In 2021, HPSA continued its website "refresh" with an emphasis on regularly updating its Frequently Asked Questions section. To better support prospective and existing collection sites, the website's online forms functionalities were also improved.

Quarterly, over 13K users visited the website; 89.8% new and 10.2% returning. The top organic words taking the users to the website include *hpsa*, *sharps container*, *recyclepedia*, *approved sharps container*, *can I return medication to pharmacy*.

Consumers can access unwanted medications and used medical sharps returning guidelines as well as the drop-off location map on the website. By entering a postal code, geolocation map displays collection sites in user's locality. The searchable Collection Site Finder can be found [here](#).

In 2021, HPSA added a new network, Instagram, to elevate communication's campaigns visual storytelling and engage with the target audience in a way that aligns with their consumption habits. Ongoing series

were developed and posted across all social media pages (Instagram, Facebook, Twitter and LinkedIn), highlighting pharmacists and consumers educational stories. From July 2021, after the launch of the campaigns until the end of the year, HPSA published a total of 241 posts across all platforms, with 1,017 likes, 134 comments and 439 new followers.

C. Collection Locations

Upon registration, all HPSA collection sites received a package that contains the following consumer-related educational materials:

- Rack cards titled "Take It Back" and bookmarks titled "Don't throw it out" provide information on how the public should safely store and handle unused and expired Pharmaceuticals in the home ([here](#)).
- Rack cards titled "Take It Back" and bookmarks titled "Don't throw it out" provide information on how the public should safely store and handle used medical sharps in the home, the use of sharps containers and how sharps are disposed of ([here](#)).
- A Pharmacist's Guide – Medications Return Program can be viewed [here](#).
- A Pharmacist's Guide –Sharps Collection Program can be viewed [here](#).

Pharmacies also received a printable digital poster summarizing numbers from the consumer study with a call-to-action to bring back unwanted medications and used medical sharps in the pharmacy.

In addition, every year, each collection site receives a physical copy of the most up-to-date list of all HPSA registered collection locations in Ontario. This mass mailout usually occurs in the spring.

Appendix 3 – Auditor's Report (Opinion from a Licensed Public Accountant)

INDEPENDENT PRACTITIONER'S REASONABLE ASSURANCE REPORT ON PARAGRAPHS 1, 2 AND 3 OF SUBSECTION 9 (1) OF THE ONTARIO REGULATION 298/12

To the Ministry of the Environment, Conservation and Parks

We have undertaken a reasonable assurance engagement of the Health Products Stewardship Association management's accompanying statement for the year ended December 31, 2021, comprising the information required by paragraphs 1, 2 and 3 of subsection 9 (1) of the Ontario Regulation 298/12 with respect to the responsibilities of producers arising from the collection of pharmaceuticals and sharps.

Management's Responsibility

Management is responsible for the preparation of the statement comprising the information required by paragraphs 1, 2 and 3 of the subsection 9 (1) in accordance with applicable criteria set out in Note 1 of this report. Management is also responsible for selecting the applicable criteria used. This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation of management's statement that is free from material misstatement, whether due to fraud or error.

Our Responsibility

Our responsibility is to express a reasonable assurance opinion on management's statement based on the evidence we have obtained. We conducted our reasonable assurance engagement in accordance with Canadian Standard on Assurance Engagements 3000, *Attestation engagements other than audits or reviews of historical financial information*. This standard requires that we plan and perform this engagement to obtain reasonable assurance about whether management's statement is free from material misstatement.

Reasonable assurance is a high level of assurance, but is not a guarantee that an engagement conducted in accordance with this standard will always detect a material misstatement when it exists. Misstatement can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the decisions of users of our report. The nature, timing and extent of procedures selected depend on our professional judgment, including an assessment of the risks of material misstatement, whether due to fraud or error, and involve obtaining evidence about the preparation of management's statement in accordance with the applicable criteria.

A reasonable assurance engagement also includes assessing the suitability in the circumstances of management's use of applicable criteria, applied as explained in Note 1 of this report, as the basis for preparing information required by paragraphs 1, 2 and 3 of the subsection 9 (1); evaluating the appropriateness of quantification methods and reporting policies used, and the reasonableness of estimates made by management; and evaluating the overall presentation of the management statement.

Independent firm affiliated to

 **MOORE**

We believe the evidence we obtained is sufficient and appropriate to provide a basis for our qualified opinion. Relevant information required by paragraphs 1, 2 and 3 of the subsection 9 (1) is set out in the management's accompanying statement.

Our Independence and Quality Control

We have complied with the relevant rules of professional conduct / code of ethics applicable to the practice of public accounting and related to assurance engagements, issued by various professional accounting bodies, which are founded on fundamental principles of integrity, objectivity, professional competence and due care, confidentiality and professional behaviour.

The firm applies Canadian Standard on Quality Control 1, *Quality Control for Firms that Perform Audits and Reviews of Financial Statements, and Other Assurance Engagements* and, accordingly, maintains a comprehensive system of quality control, including documented policies and procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements.

Basis of Qualified Opinion

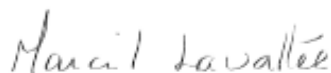

As discussed in Note 1 to the management's statement, quantification is subject to inherent limitation because our assessment of the total weight of all of the pharmaceuticals and sharps that were collected at the collection locations and the total weight of the pharmaceuticals and sharps that were incinerated is strictly based on the information provided by the collection service providers.

Qualified Opinion

In our opinion, except for the effects of the matters described in the Basis for Qualified Opinion paragraph, management's statement for the year ended December 31, 2021, is prepared, in all material respects, in accordance with the applicable criteria.

Purpose of Statement

Management's statement has been prepared to report to the Ministry of the Environment, Conservation and Parks and is not intended to be and should not be used for any other purpose.

HEALTH PRODUCTS STEWARDSHIP ASSOCIATION

NOTE

DECEMBER 31, 2021

3

1. MANAGEMENT STATEMENT

The following steps were applied to the assessment of the location of collection facilities, in accordance with the Act.

- From the Ontario College of Pharmacist Website, we verify the status of each of the Collection Facilities of the Association. We confirm that all the Collection Facilities are eligible as at December 31, 2021;
- The Association's listing stated 4,346 pharmacy collection locations in Ontario;
- The Association confirms the number of Collection Facilities published on the Ministry of the Environment, Conservation and Parks Website. The number of Collection Facilities is 4,642;
- Therefore, as of December 31, 2021, 93.62% of eligible pharmacy collection locations in Ontario are registered with the Association.

The following steps were applied to the assessment of the total weight of all of the pharmaceuticals and sharps that were collected at the collection locations during the year ended December 31, 2021.

- Upon reception of monthly invoices from collection service providers (Stericycle and ECS Cares Incorporated), the following data is recorded in CRM software:
 - a. Invoice number;
 - b. Date of service;
 - c. Manifest number (BOL) that confirms that the collection service was rendered;
 - d. Name of site service;
 - e. Location of the collection service;
 - f. Quantity of items collected;
 - g. Description of what was collected (Rx/Sharps);
 - h. Total weight collected for each item;
- Using the CRM software, the Association generates a report indicating the total weight collected by province for a specific period;
- In 2021, a total of 318,677.30 kilograms of pharmaceutical waste was collected at the collection locations;
- To confirm total weight collected, the Association compares weight collected from Stericycle and ECS Cares Incorporated with disposal charges (incineration) provided by Daniels Sharpsmart Canada Ltd. In 2021, a total of 407,911.60 kilograms of sharp waste was collected at the collection location;

As established by management, there is an unavoidable risk of material misstatements due that we consider it impractical to introduce surveillance controls on the data produced by the collection service providers (Stericycle, ECS Cares Incorporated and Daniels Sharpsmart Canada Ltd) and on their control activities. Our statement on the total weight of pharmaceutical waste and sharps waste is strictly based on the information provided by the collection service providers.

Appendix 4 – Samples of HPSA Materials

TAKE IT BACK!

Responsibly return unused and expired medication.

You Can Return:

- All prescription medications
- Over-the-counter drugs
- Natural health products
- Inhalers

It is important to check your home regularly for medications that are expired or no longer needed. Disposing of them properly can prevent misuse, accidental ingestion, and protect the environment in the process.

Visit www.healthsteward.ca to find your nearest participating pharmacy.

**MEDICATIONS
RETURN PROGRAM**

TAKE IT BACK!

Responsibly dispose of your used sharps to help prevent needlestick and sharps injuries.

You Can Return:

- Needles, needle tips and syringes
- Insulin pens
- Lancets
- Other used medical sharps

Components such as glucose meters and cotton swabs should not be disposed of in sharps containers.

Visit www.healthsteward.ca to find your nearest participating pharmacy.

**SHARPS
COLLECTION PROGRAM**

MEDICATIONS RETURN PROGRAM: PHARMACISTS' GUIDE

1	Upon receipt of an empty collection bin, fill, seal and tie bin, please ensure bins are kept in an access-controlled and secure area behind the pharmacy counter.	
2	Please refer to the Accepted and Not Accepted sheet to determine what is accepted through the Medications Return program and what is not. The HPSA website www.healthsteward.ca is also a great resource tool.	
3	Be sure to place all loose pills directly into the lined collection bin, and recycle outer packaging when possible. Liquids and creams must remain in its original bottle or tube. Do not put any free liquids or deaerated drugs in the container.	
4	A full bin should not exceed 23 kilograms (50 pounds). Once the bin is full, secure the bin by tying it closed. Apply firm pressure to the lid until the seal is formed. Using the provided zip ties, weave through each hole above the bin to seal and lock the bin into place.	
5	To schedule a pickup, complete the Service and Supply Request Form and send to HPSA by emailing info@healthsteward.ca , or by calling 1-844-228-8889.	

For immediate assistance, contact our toll-free number 1-844-535-8889.

SHARPS COLLECTION PROGRAM - INSTRUCTION SHEET

1	THE SHARPS COLLECTION PROGRAM KIT CONTAINS THE FOLLOWING <ul style="list-style-type: none"> • Twenty-four (24) 4.25 L sharps containers and lids • Two (2) yellow plastic bags • Two (2) cardboard boxes • Four (4) cytotoxic labels 	
2	ISSUING THE SHARPS CONTAINERS TO THE PUBLIC <ul style="list-style-type: none"> • The sharps containers must be issued to the public for free. It may only be used for domestic purposes only. • Assemble the container before giving it out to the public. • Press firmly until the lid is clicked on securely. 	
3	ASSEMBLING THE CARDBOARD BOX <ul style="list-style-type: none"> • Assemble the box as pictured. • Secure the bottom with tape. • Use the yellow bag to line the box. 	
4	ACCEPTING RETURNS FROM THE PUBLIC <ul style="list-style-type: none"> • Ensure the tab is folded to correctly lock the container lid. • Any type of approved sharps container returned from the public is accepted. • Any number of the public may return containers to your location. • Refuse the waste if it's coming from a commercial, institutional or clinical source. 	
5	PACKING THE BOX <ul style="list-style-type: none"> • Place locked sharps containers received from members of the public inside the lined box as pictured. • If a container is returned and contains cytotoxic waste, make sure you apply a cytotoxic label to the box. • As this program accepts sharps containers of varying sizes and shapes, ensure the floor and the box can be safely closed. DO NOT OVERFILL. This box is designed to take twelve (12) 4.25 L containers. 	
6	PREPARING THE BOX FOR TRANSPORTATION <ul style="list-style-type: none"> • Tie the yellow bag closed when the box is full. • Close the top flaps while ensuring the handles are correctly assembled. • Secure the top flaps with tape. • Ensure the bin is clearly labelled with your pharmacy name and address. 	
7	ARRANGING FOR A SERVICE <ul style="list-style-type: none"> • Submit your service request online by visiting www.healthsteward.ca/pharmacists • Secure the top flaps with tape. • You may also call your service provider for pickup and re-supply. 	

If you have further questions or comments about the Sharps Collection Program, please contact us at info@healthsteward.ca or by phone at 1-844-535-8889. You can also visit us online at www.healthsteward.ca
