

SHARPS COLLECTION PROGRAM INSTRUCTION SHEET

HEALTH PRODUCTS
STEWARDSHIP ASSOCIATION

1

What is in a Sharps Kit?

- 24 sharps containers (4.25L each)
- 2 yellow plastic liners
- 2 cardboard boxes
- 4 cytotoxic labels

2

How to assemble the sharps container?

- Assemble the blue lid and the yellow container as pictured
- Press firmly until the lid is clicked on securely

3

How to assemble the cardboard box?

- Assemble the box as pictured
- Secure the bottom with tape
- Use the yellow liner to line the box

4

What is accepted?

- Accept any type of approved sharps container returned from the public (no bottles or tin cans)
- Ensure the returned containers are securely locked
- Visit HPSA website www.healthsteward.ca for additional information about program guidelines

5

How to prepare boxes for a pick up?

- Place locked sharps containers inside the lined box as pictured
- Ensure you apply a cytotoxic label if a container contains cytotoxic waste
- Secure the liner by tying it closed once the box is full
- Close the top flaps while ensuring the handles are correctly assembled
- Secure the top flaps with tape
- Label the box with your pharmacy name and address
- DO NOT OVERFILL. This box is designed for a maximum of 12 containers

For domestic use ONLY. DO NOT USE IN PHARMACY.

Sharps containers are for free distribution to members of the public only.
