Acronyms and Definitions

Collection Locations	Community pharmacies registered with HPSA to collect unwanted Pharmaceuticals and used Medical Sharps returned by the public.
Member	A producer who is a member of HPSA.
Medical Sharps	<i>Ont. Reg. 298/12</i> - "A needle, safety engineered needle, lancet or other similar instrument that is designed to puncture the skin of individuals or companion animals for medical purposes and that is sold to consumers in Ontario, whether it is sold by the producer of the sharp or by any another person, and includes anything affixed to the sharp, including a syringe."
OMRP	Ontario Medications Return Program
OSCP	Ontario Sharps Collection Program
Pharmaceuticals	Pharmaceuticals include prescription drugs, non-prescription drugs, and natural health products. <i>Ont. Reg. 298/12</i> - "A drug within the meaning of section 2 of the <i>Food and Drug Act</i> (Canada) that is sold to consumers in Ontario, whether it is sold by the producer of the pharmaceutical or by another person and includes a natural health product within the meaning of the <i>Natural Health Products Regulations</i> made under that Act."
Producer	The producer of a pharmaceutical or sharp is: <ul style="list-style-type: none"> (a) the manufacturer of the pharmaceutical or sharp, if it is sold to consumers in Ontario under a brand that the manufacturer owns, licenses or otherwise has rights to; (b) if there is no person described in clause (a), the owner or licensee of the brand or the person who otherwise has rights to the brand under which the pharmaceutical or sharp is sold to consumers in Ontario; (c) if there is no person described in clause (a) or (b), the importer of the pharmaceutical or sharp into Ontario; or

	if there is no person described in clause (a), (b), or (c), the first person who sells the pharmaceutical or sharp to another person in Ontario.
Regulation	Ontario Regulation 298/12 Collection of Pharmaceuticals and Sharps – Responsibilities of Producers Environmental Protection Act

CEO's Letter

Dear Stakeholders,

I'm pleased to report 2024 was a year of significant achievement for the Health Products Stewardship Association (HPSA).

It was a year marked by substantial progress in fostering consumer engagement in take-back programs, strengthening collaboration with collection partners, and continuing efforts to educate consumers about the environmental impact of incorrect disposal of health products while promoting sustainable stewardship practices. Our take-back programs are carefully designed to ensure the safe, compliant, and environmentally responsible disposal of unused or expired medications and used medical sharps collected from consumers.

HPSA experienced significant growth in member recruitment in 2024, reaching a total of 180 members. This growth highlights the increased commitment of health products producers to fulfill their Extended Producer Responsibility (EPR) obligations.

Through our collective stewardship programs, HPSA helps its members meet these obligations by ensuring the safe disposal of products at the end of their life cycle, supporting a more sustainable and responsible approach to health product management

We are committed to working with the Ministry of the Environment, Conservation and Parks to ensure compliance and environmental stewardship in accordance with Ontario Regulation 298/12 *Collection of Pharmaceuticals and Sharps - Responsibilities of Producers Environmental Protection Act*.

On behalf of our members, HPSA has administered the Ontario Medications Return Program (OMRP) for Pharmaceuticals (prescription drugs, non-prescription drugs, and natural health products) and the Ontario Sharps Collection Program (OSCP) for Medical Sharps that are sold for use in the "consumer/residential" waste stream since the programs' inception in 2013.

In 2024, HPSA grew the collection network to **4,558** across Ontario equaling a participation rate of **92.43%**. HPSA collected **330,274 kilograms** of unwanted medications under the OMRP and **452,203 kilograms** of used medical sharps under the OSCP. These achievements were possible due the collaborative efforts of our collection locations.

As the organization enters its 25th year of existence, HPSA remains devoted to continuous improvements in the delivery of the OMRP and OSCP. As we continue to execute our strategy and work towards achieving our goals, we look forward to enhancing consumer participation, improving accessibility, and promoting safe disposal of health products.

Best Regards,

Delphine Lagourgue

President & Chief Executive Officer

Section I: Overview of HPSA

The Health Products Stewardship Association (HPSA) operates free take back programs for the safe disposal of unwanted medications and/or used sharps in the provinces of Ontario, British Columbia, Manitoba, New Brunswick, Quebec and Prince Edward Island. In addition to helping producers fulfill their stewardship obligations, we educate consumers on how to practice safe disposal to strengthen ties across communities and the industry.

1. 2024 Achievements

In 2024, Health Products Stewardship Association achieved significant milestones in advancing its commitment towards educating the consumers on the proper disposal of Medications (OMRP) and Medical sharps (OSCP). Through collaborative efforts and innovative strategies, HPSA collected **330,274 kg** of unwanted medications under OMRP and **452,203 kg** of used medical sharps under OSCP in partnership with **4,558** retail pharmacies across the province. Our communication strategies focused on educating the consumer, promoting take back programs and raising awareness on proper disposal methods.

Section II: Overview of HPSA

1. Members' Overview

HPSA's registered members for 2024 are comprised of **169** Producers for the OMRP and **47** for the OSCP.

2. 2024 HPSA Members

[Section 9 \(2\)1](#) – *The name of each producer on whose behalf the report is prepared.*

- The list of producers/members for the OMRP is attached in [Appendix 1](#).
- The list of producers/members for the OSCP is attached in [Appendix 2](#).
- Under Regulation 298/12, Producers are required to have a link on their website that takes consumers to the HPSA website where information on the OSCP and OMRP can be found. A list of HPSA producer/member website links can be found in [Appendix 3](#).

Section III: Programs

1. Overview of the Collection Locations

Section 9 (2) 2 - The number of collection locations and the location of each of the collection locations at which collection of the designated material of the producers was provided for by all of the producers and a description of any changes that occurred with respect to the number and location of collection locations from the previous calendar year.

- Collection sites for both the OMRP and the OSCP are community pharmacies (listed in [Appendix 4](#)).
- Each HPSA collection site has signed a Collection Location Agreement (CLA), detailing procedures for collection, handling and storage of unwanted Pharmaceuticals and used Medical Sharps received from the public.
- In accordance with Section 4 of the Regulation, HPSA ensured that the number of collection locations is at minimum equal to 90% of retail pharmacies in Ontario, as of October 1 in the preceding calendar year.
- The Ministry of the Environment Conservation and Parks website posted **4,931** as the number of registered pharmacies that were eligible to participate in the OSCP and OMRP.
- As of December 31, 2024, **4,558** active pharmacy collection locations in Ontario were registered with HPSA and had returned designated materials in the last 12 months.
- In the previous calendar year, the number of registered and active retail pharmacies participating in HPSA's stewardship programs was **4,414**. 2024 saw an increase of **144** retail pharmacies participating in the HPSA programs over the previous year.
- The participation rate of total eligible collection locations in both programs in Ontario was **92.4%** at the end of 2024.

Pharmacy Participation

Section 9 (1) 6 - A description of any actions taken by the producer during the previous calendar year that exceeded the actions required for the purposes of section 4, in order to provide for the collection of the designated material of the producer.

Throughout the year, HPSA contacts all non-registered eligible retail pharmacies to introduce the OMRP and the OSCP.

A full list of collection locations can be found in [Appendix 4](#).

Section 4.3 - A producer of a pharmaceutical or sharp shall ensure that at each collection location at which the producer provides for collection of the designated material of the producer, the collection is:

- a) available free of charge to consumers;
- b) not subject to any limitations with respect to the quantity of the designated material of the producer that a consumer may bring for collection; and
- c) if the collection location is in a pharmacy in respect of which a certificate of accreditation is in effect under section 139 of the Drug and Pharmacies Regulation Act, available during the business hours of the pharmacy.

Below are the steps to become a HPSA Collection Location

- Pharmacies sign an agreement outlining procedures for the collection, handling, and storage of pharmaceuticals and medical sharps received from the public.
- Collection Location Agreements submitted by pharmacies are approved within 10 business days.
- Once accepted as a registered collection location, pharmacy staff review HPSA guidelines and are provided with public educational assets on the proper disposal of unwanted medications and used medical sharps. Pharmacies also have access to FAQ Pharmacists pages on HPSA's website.
- HPSA delivery and pickup services are provided to all registered collection locations and the public at no cost.

2. Overview of the Collection and Disposal Process

[Section 9 \(1\) 4](#) - A description of how the designated material of the producer collected at collection locations was handled and how it was disposed of during the previous calendar year.

Ontario Medications Return Program (OMRP)

- Unused and/or expired Pharmaceuticals returned by the public and collected through the OMRP are dropped in lined, reusable 60L pharmaceutical HPSA branded waste containers (MRP containers) at the collection locations (behind the pharmacy dispensary). When ready for shipment, pharmacy staff tie off the container liner, secure the lid to the base and arrange for shipment. The service provider contracted by HPSA (Stericycle, ULC) transports the waste to an HPSA-approved disposal site where the Pharmaceuticals are incinerated.
- Once emptied, the MRP containers are cleaned and inspected for reuse. If a container is broken or has been deemed structurally unsound, it is recycled into plastic pellets.
- Stericycle, ULC, manages the disposal facility.

Ontario Sharps Collection Program (OSCP)

- Used biomedical sharps collected through the OSCP are received from consumers in sharps containers labelled with a biohazard symbol. At the collection location, these sharps containers are packaged in secondary containment packaging (i.e., a corrugated cardboard box with the universal biohazard symbol on the outside) that is lined with a 2 mm plastic bag. When ready for shipment, pharmacy staff tie off the box liner, seal the box and arrange for shipment. The service providers contracted by HPSA (Stericycle, ULC) transport the boxes of biomedical sharps to an HPSA-approved disposal site where the return boxes and the medical sharps

containers containing biomedical sharps are autoclaved. The approved facility that handles sharp autoclaving is managed by Stericycle, ULC.

- Used cytotoxic sharps collected through the OSCP are received from consumers in sharps containers. At the collection location, these sharps containers are packaged in lined, corrugated cardboard boxes with cytotoxic labelling on the outside. When ready for shipment, collection locations tie off the box liner, seal the box and arrange for shipment. The service providers contracted by HPSA (Stericycle, ULC) transport the boxes of cytotoxic sharps to an HPSA approved disposal site where the return boxes and the medical sharps containers containing cytotoxic sharps are incinerated. The disposal facility is managed by Stericycle, ULC.

3. 2024 Collections

3.3.1 - *Pharmaceutical collections:*

Section 9 (2) 3 - *The total weight of all of the following that was collected at the collection locations during the previous calendar year:*

- Pharmaceuticals.*
- Containers described in paragraph 3 of section 2, excluding any containers that were recycled.*

- In 2024, a total of **24,137** MRP containers were supplied to the HPSA collection network, and **330,274** kilograms of Pharmaceuticals were collected.
- In 2024, **330,274** kilograms of Pharmaceuticals were safely disposed by Stericycle, ULC.

Section IV: Awareness & Initiatives

1. Provincial and National Campaigns

In 2024, HPSA developed and executed a range of nationwide and regional initiatives to boost program awareness, education, and engagement. This section highlights key campaigns from the year. Through earned outreach efforts, these campaigns secured 6 interviews and 2 press releases, in 18.5 million impressions.

Don't Dump Drugs

HPSA's "Don't Dump Drugs" campaign aims to raise awareness about the environmental dangers of improper medication and sharps disposal. The campaign focuses on simple, engaging messaging that resonates across generations and cultures, using the memorable slogan "Don't Dump Drugs" to drive the message home.

By personifying common disposal methods, like toilets and trash bins, we emphasize the harmful consequences these actions have on the environment. In addition, a new logo, inspired by the recycling symbol, was created to promote safe disposal practices and encourage the return of medications and medical sharps to pharmacies. This initiative seeks to change behaviours and foster greater public participation in protecting the environment through responsible disposal.

National Drug Drop Off Month

To promote National Drug Drop-Off Month in August, HPSA collaborated with Drug Free Kids (DFK) Canada to raise awareness among parents and consumers about the correct way to dispose of unused medication and safe storage in the household. A 2023 survey, conducted by Leger on behalf of HPSA, indicated that 70% of Canadian parents admit to leaving their medications in a place that is accessible by their children and 87% of Canadian parents do not consider the safe disposal of unwanted medications as essential.

The campaign was divided into 4 components:

- 1) **Radio Campaign:** A joint Radio Campaign under the theme of “unfortunately, it happens too often” was aired for 13 weeks in 240 radio outlets across Canada, reaching a total broadcast of 23,000.
- 2) **Nation-wide Webinar:** Two webinars explored the impact of substance use on youth mental health, particularly during the back-to-school season while focusing on limiting access to drugs by returning unwanted medications. HPSA's CEO had an intervention segment during the webinars to help parents prevent misuse in their household.
- 3) **Activation Event:** HPSA participated in take-back day in collaboration with Rexall pharmacies to promote safe disposal and engage the communities in these programs. The attendees had the

chance to learn more about the campaign, access educational materials, and learn about the role families and caregivers play in prevention efforts.

- 4) **Media News Highlights:** To promote this initiative, articles were published in 104 print and digital outlets. HPSA was interviewed on a CTV News report and, with our partner DFK, participated in a segment on The Evan Bray Show.

Diabetes Awareness Month

During diabetes awareness month in November, HPSA ran a campaign targeting diabetes patients to raise awareness on the importance of safe disposal of sharps. The Campaign consisted of social media and press releases in both English and French.

2. Conferences and Symposiums

In 2024, HPSA actively engaged with industry experts and educational institutions to enhance awareness of the OMRP and OSCP programs. The organization participated in a range of conferences and symposiums aimed at informing the public, pharmacists and producers, with the goal of driving program awareness, members' engagement and increasing participation at collection locations. These efforts were part of a broader strategy to elevate program visibility and foster stronger industry collaboration.

Speaking Engagement - OPA

HPSA participated in Ontario Pharmacy Association's (OPA) bi-annual conference in January 2024 in Toronto. The topic of the presentation focused on the role of pharmacist within an environmentally sustainable approach. The event was attended by all pharmacist in Ontario.

Speaking Engagement - CHFA

At the 2024 Canadian Health Food Association (CHFA) conference, HPSA discussed the Extended Producer Responsibility (EPR) for health product producers. HPSA highlighted the importance of EPR programs in promoting sustainability and ensuring that producers take responsibility for the lifecycle of their products. By participating in the conference, HPSA helped raise awareness among producers about their evolving obligations under EPR regulations and encouraged industry-wide collaboration to create more sustainable practices in the health products sector.

Promotion: ONPharm

HPSA participated in the ONPharm conference, setting up an engaging booth. This participation showcased HPSA's commitment to educating healthcare providers, pharmacists and the public about safe disposal through interactive presentations, informative brochures, and discussions with industry experts.

3. Social Media and Website:

In 2024, HPSA achieved significant growth and engagement through our social media channels, amplifying our reach and impact within the health products sector. Through a combination of organic content and targeted paid digital ads, we effectively expanded our audience base and increased awareness of key initiatives.

Insights:

- The paid ads allowed us to broaden our visibility and connect with new stakeholders with more than 300,000 impressions.
- The campaign generated more than 6,000 visits to the website.
- This balanced approach helped strengthen our online presence, resulting in increased interactions and a deeper connection with our audience.

HPSA's website underwent a comprehensive revamp, resulting in a more streamlined and user-friendly layout. The site now features distinct sections and detailed guidelines for each province, for Consumers and Collection Locations separately, offering updated information on the proper procedures for returning medical sharps and medications. New resources were also added.

4. Educational Materials:

HPSA enhanced its educational assets to ensure users can easily access vital resources and information. The updated guides now offer a more streamlined and informative layout, featuring direct links to educational videos, collection location maps, and other materials available on the HPSA website. These resources are designed to provide clear, step-by-step guidance on the safe disposal of medications and medical sharps, as well as other critical topics. The updates aim to improve consumer knowledge and foster greater participation in safe disposal practices. Please see [Appendix 5](#) for more samples of HPSA materials.

Appendix 5: Sample of HPSA Materials

LET'S BUILD A HEALTHIER AND SAFER ENVIRONMENT TOGETHER

Follow these steps to return your used medical sharps

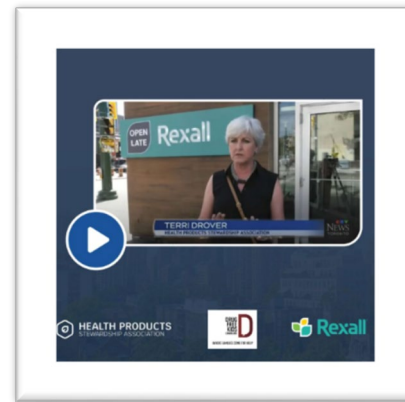

Step 1
 Pick up a sharps container from your local collection location (subject to availability).

Step 2
 After use, place used medical sharps in the provided container, ensuring the stack of sharps stay below the lid closure line.

Step 3
 Permanently close the container following the instructions and return it to a collection location.

 **FIND A COLLECTION LOCATION NEAR YOU**

Appendix 6: Auditor's Report

INDEPENDENT PRACTITIONER'S REASONABLE ASSURANCE REPORT ON PARAGRAPHS 1, 2 AND 3 OF SUBSECTION 9 (1) OF THE ONTARIO REGULATION 298/12

To the Ministry of the Environment, Conservation and Parks

We have undertaken a reasonable assurance engagement of the Health Products Stewardship Association management's accompanying statement for the year ended December 31, 2024, comprising the information required by paragraphs 1, 2 and 3 of subsection 9 (1) of the Ontario Regulation 298/12 with respect to the responsibilities of producers arising from the collection of pharmaceuticals and sharps.

Management's Responsibility

Management is responsible for the preparation of the statement comprising the information required by paragraphs 1, 2 and 3 of the subsection 9 (1) in accordance with applicable criteria set out in Note 1 of this report. Management is also responsible for selecting the applicable criteria used. This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation of a management statement that is free from material misstatement, whether due to fraud or error.

Our Responsibility

Our responsibility is to express a reasonable assurance opinion on the management statement based on the evidence we have obtained. We conducted our reasonable assurance engagement in accordance with Canadian Standard on Assurance Engagements 3000, *Attestation engagements other than audits or reviews of historical financial information*. This standard requires that we plan and perform this engagement to obtain reasonable assurance about whether the management statement is free from material misstatement.

Reasonable assurance is a high level of assurance, but is not a guarantee that an engagement conducted in accordance with this standard will always detect a material misstatement when it exists. Misstatement can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the decisions of users of our report. The nature, timing and extent of procedures selected depend on our professional judgment, including an assessment of the risks of material misstatement, whether due to fraud or error, and involve obtaining evidence about the preparation of the management statement in accordance with the applicable criteria.

A reasonable assurance engagement also includes assessing the suitability in the circumstances of management's use of applicable criteria, applied as explained in Note 1 of this report, as the basis for preparing information required by paragraphs 1, 2 and 3 of the subsection 9 (1); evaluating the appropriateness of quantification methods and reporting policies used, and the reasonableness of estimates made by management; and evaluating the overall presentation of the management statement.

Moore North America, Inc.
An independent member
of Moore North America, Inc.

We believe the evidence we obtained is sufficient and appropriate to provide a basis for our qualified opinion. Relevant information required by paragraphs 1, 2 and 3 of the subsection 9 (1) is set out in the management's accompanying statement.

Our Independence and Quality Management

We have complied with the relevant rules of professional conduct / code of ethics applicable to the practice of public accounting and related to assurance engagements, issued by various professional accounting bodies, which are founded on fundamental principles of integrity, objectivity, professional competence and due care, confidentiality and professional behaviour.

The firm applies Canadian Standard on Quality Management 1, Quality Management for Firms that Perform Audits or Reviews of Financial Statements, or Other Assurance or Related Services Engagements, which requires the firm to design, implement and operate a system of quality management, including policies or procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements.

Basis of Qualified Opinion

As discussed in Note 1 to the management statement, quantification is subject to inherent limitation because our assessment of the total weight of all of the pharmaceuticals and sharps that were collected at the collection locations and the total weight of the pharmaceuticals and sharps that were incinerated is strictly based on the information provided by the collection service providers.

Qualified Opinion

In our opinion, except for the effects of the matters described in the Basis for Qualified Opinion paragraph, the management statement for the year ended December 31, 2024, is prepared, in all material respects, in accordance with the applicable criteria.

Purpose of Statement

The management statement has been prepared to report to the Ministry of the Environment, Conservation and Parks and is not intended to be and should not be used for any other purpose.

HEALTH PRODUCTS STEWARDSHIP ASSOCIATION

NOTE

DECEMBER 31, 2024

3

1. MANAGEMENT STATEMENT

The following steps were applied to the assessment of the location of collection facilities, in accordance with the Act.

- From the Ontario College of Pharmacist Website, we verify the status of each of the Collection Facilities of the Association. We confirm that all the Collection Facilities are eligible as at December 31, 2024;
- The Association's listing stated 4,558 pharmacy collection locations in Ontario;
- The Association confirms the number of Collection Facilities published on the Ministry of the Environment, Conservation and Parks Website. The number of Collection Facilities is 4,931;
- Therefore, as of December 31, 2024, 92.4% of eligible pharmacy collection locations in Ontario are registered with the Association.

The following steps were applied to the assessment of the total weight of all of the pharmaceuticals and sharps that were collected at the collection locations during the year ended December 31, 2024.

- Upon reception of monthly invoices from collection service providers (Stericycle), the following data is recorded in CRM software:
 - a. Invoice number;
 - b. Date of service;
 - c. Manifest number (BOL) that confirms that the collection service was rendered;
 - d. Name of site service;
 - e. Location of the collection service;
 - f. Quantity of items collected;
 - g. Description of what was collected (Rx/Sharps);
 - h. Total weight collected for each item;
- Using the CRM software, the Association generates a report indicating the total weight collected by province for a specific period;
- In 2024, a total of 330,274 kilograms of pharmaceutical waste was collected at the collection locations;
- To confirm total weight collected, the Association compares weight collected from Stericycle with disposal charges (incineration) provided by Stericycle. In 2024, a total of 452,203 kilograms of sharp waste was collected at the collection location;

As established by management, there is an unavoidable risk of material misstatements due that we consider it impractical to introduce surveillance controls on the data produced by the collection service providers (Stericycle) and on their control activities. Our statement on the total weight of pharmaceutical waste and sharps waste is strictly based on the information provided by the collection service provider.
