ACRONYMS AND DEFINITIONS

Collection Locations	Community pharmacies registered with HPSA to collect unwanted Pharmaceuticals and used Medical Sharps returned by the public.
Pharmaceuticals	Pharmaceuticals include prescription drugs, non-prescription drugs, and natural health products
Member	A producer who is a member of HPSA
Medical Sharps	<i>Ont. Reg. 298/12</i> - "A needle, safety engineered needle, lancet or other similar instrument that is designed to puncture the skin of individuals or companion animals for medical purposes and that is sold to consumers in Ontario, whether it is sold by the producer of the sharp or by any another person, and includes anything affixed to the sharp, including a syringe"
Pharmaceuticals	<i>Ont. Reg. 298/12</i> – " a drug within the meaning of section 2 of the <i>Food and Drug Act</i> (Canada) that is sold to consumers in Ontario, whether it is sold by the producer of the pharmaceutical or by another person, and includes a natural health product within the meaning of the <i>Natural Health Products Regulations</i> made under that Act.
OMRP	Ontario Medications Return Program
OSCP	Ontario Sharps Collection Program
Regulation	Ontario Regulation 298/12 <i>Collection of Pharmaceuticals and Sharps – Responsibilities of Producers</i> Environmental Protection Act
Producer	the producer of a pharmaceutical or sharp is, (a) the manufacturer of the pharmaceutical or sharp, if it is sold to consumers in Ontario under a brand that the manufacturer owns, licenses or otherwise has rights to; (b) if there is no person described in clause (a), the owner or licensee of the brand or the person who otherwise has rights to the brand under which the pharmaceutical or sharp is sold to consumers in Ontario; (c) if there is no person described in clause (a) or (b), the importer of the pharmaceutical or sharp into Ontario; or (d) if there is no person described in clause (a), (b) or (c), the first person who sells the pharmaceutical or sharp to another person in Ontario

CEO'S LETTER

Dear Stakeholders,

I am pleased to present the annual report for the Health Products Stewardship Association (HPSA) for the year 2023. The year 2023 has been a pivotal one for the Health Products Stewardship Association (HPSA) as we continue our mission to consumer returns and responsible disposal of health products.

Since the programs' inception in 2013, HPSA has been dedicated to managing the Ontario Medications Return Program (OMRP) for Pharmaceuticals (prescription drugs, non-prescription drugs, and natural health products) and the Ontario Sharps Collection Program (OSCP) for Medical Sharps, distributed within Ontario's "consumer/residential" waste stream.

HPSA continues to operate in accordance with Ontario Regulation 298/12 *Collection of Pharmaceuticals and Sharps – Responsibilities of Producers*, both the OMRP and OSCP, ensuring strict adherence to Extended Producer Responsibility principles. This commitment underscores our dedication to regulatory compliance.

In 2023, HPSA expanded its reach and impact by collaborating with **4,414** pharmacies across Ontario. Through these partnerships, we were able to collect **314,718** kilograms of pharmaceuticals and **411,709** kilograms of medical sharps, contributing to a cleaner and safer environment.

These programs are intricately crafted to guarantee the appropriate packaging, handling, transportation, and disposal of unused or expired Pharmaceuticals and used Medical Sharps received from the public in a secure, compliant, and environmentally conscious manner.

Looking ahead, HPSA remains committed to its mission of promoting the OMRP and OSCP programs and protecting public health and the environment. We will continue to collaborate with stakeholders, expand our programs, and implement innovative strategies to further our impact and achieve our goals. In addition to crafting our communication strategies and activities based on the 2022 survey outcomes, we also focused on educating the consumer on the proper safe disposal methods of unwanted medications and used medical sharps.

To summarize the foregoing points, the year 2023 has been marked by significant achievements and progress for the Health Products Stewardship Association. We extend our sincere gratitude to our members, partners, stakeholders, and the pharmacy community for their continued support and collaboration in the OMRP and OSCP programs. Together, we will continue to make a positive difference in the health and well-being of Ontarians and the environment.

Thank you for your continued support and partnership.

Terri Drover

President and CEO

SECTION I: OVERVIEW OF HPSA

The Health Products Stewardship Association (HPSA) operates free take back programs for the safe disposal of unwanted medications and/or used sharps in the provinces of Ontario, British Columbia, Manitoba, and Prince Edward Island. In addition to helping producers fulfill their stewardship obligations, we educate consumers on how to practice safe disposal to strengthen ties across communities and the industry.

1.1- Mission:

HPSA is a bridge between health care and the environment by offering programs for the safe disposal and return of medications and sharps used in Canadian homes.

1.2- Vision:

Building a healthier and safer environment together.

1.3- 2023 Achievements:

In 2023, Health Products Stewardship Association achieved significant milestones in advancing its commitment towards educating the consumers on the proper disposal of Medications (OMRP) and Medical sharps (OSCP). Through collaborative efforts and innovative strategies, HPSA collected **314,718 Kg** of unwanted medications under OMRP and **411,709 Kg** of used medical sharps under OSCP in partnership with **4,414** retail pharmacies across the province. Our communication strategies focused on educating the consumer, promoting the take back programs and raising awareness on the proper disposal methods.

SECTION II: MEMBERS' ENGAGEMENT & PARTICIPATIONS

2.1- Members' overview:

HPSA's registered members for 2023 are comprised of **121** Producers for the OMRP and **40** for the OSCP.

2.2- 2023 HPSA Members:

Section 9 (2) 1 – *The name of each producer on whose behalf the report is prepared.*

- The list of producers/members for the OMRP is attached in [Appendix 1](#).
- The list of producers/members for the OSCP is attached in [Appendix 2](#).
- Under Regulation 298/12, Producers are required to have a link on their website that takes consumers to the HPSA website where information on the OSCP and OMRP can be found. A list of HPSA producer/member website links can be found in [Appendix 5](#).

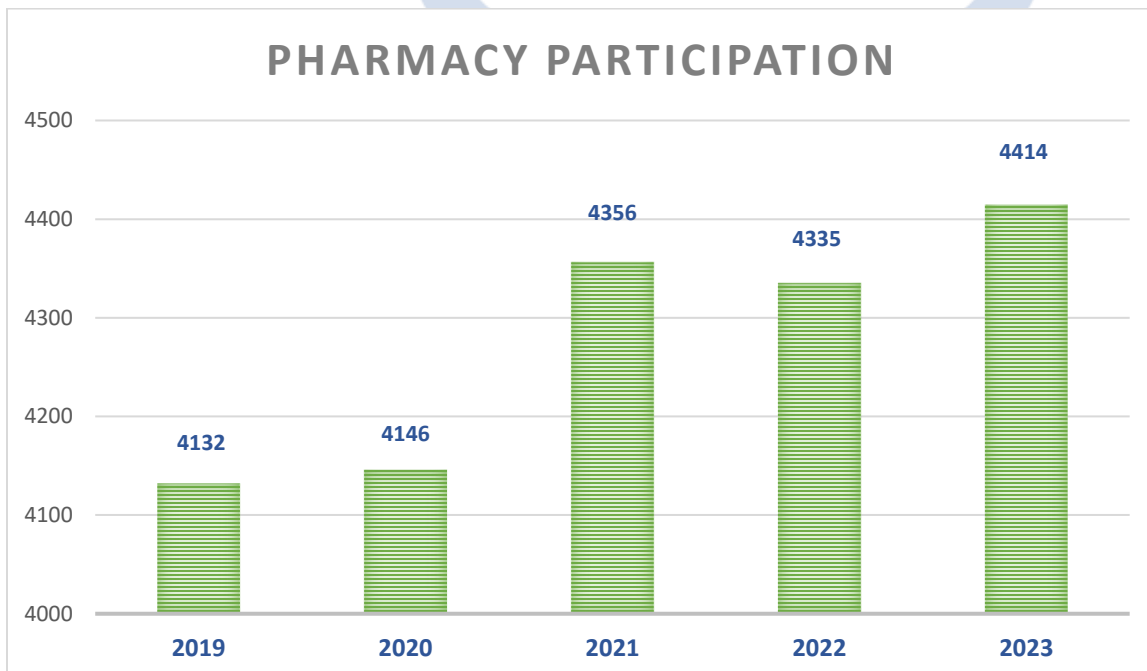

SECTION III: PROGRAMS

3.1- Overview of the collection locations

Section 9 (2) 2 - The number of collection locations and the location of each of the collection locations at which collection of the designated material of the producers was provided for by all of the producers and a description of any changes that occurred with respect to the number and location of collection locations from the previous calendar year.

- Collection sites for both the OMRP and the OSCP are community pharmacies (listed in Appendix 6).
- Each HPSA collection site has signed a Collection Location Agreement or CLA, detailing procedures for collection, handling and storage of unwanted Pharmaceuticals and used Medical Sharps received from the public.
- In accordance with Section 4 of the Regulation, HPSA ensured that the number of collection locations is at minimum equal to 90% of retail pharmacies in Ontario, as of October 1 in the preceding calendar year.
- The Ministry of the Environment Conservation and Parks website posted **4,829** as the number of registered pharmacies that were eligible to participate in the OSCP and OMRP.
- As of December 31, 2023, **4,414** active pharmacy collection locations in Ontario were registered with HPSA and had returned designated materials in the last 12 months.
- In the previous calendar year, the number of registered and active retail pharmacies participating in HPSA's stewardship programs was **4,335**. 2023 saw an increase of **79** retail pharmacies participating in the HPSA programs versus the previous year.
- The participation rate of total eligible collection locations in both programs in Ontario was **91.4%** at the end of 2023.

Section 9 (1) 6 - A description of any actions taken by the producer during the previous calendar year that exceeded the actions required for the purposes of section 4, in order to provide for the collection of the designated material of the producer.

Throughout the year, HPSA contacts all non-registered eligible retail pharmacies to introduce the OMRP and the OSCP. HPSA's outreach is usually between 5 to 10 pharmacies a day.

In accordance with Section 4(2) there is at least one HPSA collection location in every municipality in Ontario and a full list of collection locations could be found in the [Appendix 6](#).

Section 4.3 - A producer of a pharmaceutical or sharp shall ensure that at each collection location at which the producer provides for collection of the designated material of the producer, the collection is

- a) available free of charge to consumers
- b) not subject to any limitations with respect to the quantity of the designated material of the producer that a consumer may bring for collection; and
- c) if the collection location is in a pharmacy in respect of which a certificate of accreditation is in effect under section 139 of the Drug and Pharmacies Regulation Act, available during the business hours of the pharmacy.

Below are the steps to become a HPSA Collection Location

- Pharmacies sign an agreement outlining procedures for the collection, handling, and storage of pharmaceuticals and medical sharps received from the public.
- Collection Location Agreements submitted by pharmacies are usually approved within 10 business days.
- Once accepted as a registered collection location, pharmacy staff review HPSA guidelines and are provided with public educational assets on the proper disposal of unwanted medications and used medical sharps. Pharmacies also have access to FAQ Pharmacists page on HPSA's webpage.
- HPSA delivery and pickup services are provided to all registered collection locations and the public at no cost.

3.2- Overview of the collection and disposal process

Section 9 (1) 4 - A description of how the designated material of the producer collected at collection locations was handled and how it was disposed of during the previous calendar year.

Ontario Medications Return Program (OMRP)

- Unused and/or expired Pharmaceuticals returned by the public and collected through the OMRP are dropped in lined, reusable, 60L pharmaceutical HPSA branded waste containers (MRP containers) at the collection locations (behind the pharmacy dispensary). When ready for shipment, pharmacy staff tie off the container liner, secure the lid to the base and arrange for shipment. The service provider contracted by HPSA (Stericycle, ULC) transports the waste to an HPSA-approved disposal site where the Pharmaceuticals are incinerated.
- Once emptied, the MRP containers are cleaned and inspected for reuse. If a container is broken or has been deemed structurally unsound, it is recycled into plastic pellets.
- Stericycle, ULC, manages the disposal facility.

Ontario Sharps Collection Program (OSCP)

- Used biomedical sharps collected through the OSCP are received from consumers in sharps containers labelled with a biohazard symbol. At the collection location, these sharps containers are packaged in secondary containment packaging (i.e., a corrugated cardboard box with the universal biohazard symbol on the outside) that is lined with a 2 mm plastic bag. When ready for shipment, pharmacy staff tie off the box liner, seal the box and arrange for shipment. The service providers contracted by HPSA (Stericycle, ULC) transport the boxes of biomedical sharps to an HPSA-approved disposal site where the return boxes and the medical sharps containers containing biomedical sharps are autoclaved. The approved facility that handles sharp autoclaving is managed by Stericycle, ULC.
- Used cytotoxic sharps collected through the OSCP are received from consumers in sharps containers. At the collection location, these sharps containers are packaged in lined, corrugated cardboard boxes with cytotoxic labelling on the outside. When ready for shipment, collection locations tie off the box liner, seal the box and arrange for shipment. The service providers contracted by HPSA (Stericycle, ULC) transport the boxes of cytotoxic sharps to an HPSA approved disposal site where the return boxes and the medical sharps containers containing cytotoxic sharps are incinerated. The disposal facility is managed by Stericycle, ULC.

3.3- 2023 Collections

3.3.1- Pharmaceutical collections:

Section 9 (2) 3 - The total weight of all of the following that was collected at the collection locations during the previous calendar year:

- i. Pharmaceuticals.*
- ii. Containers described in paragraph 3 of section 2, excluding any containers that were recycled.*

- In 2023, a total of **22,497** MRP containers were supplied to the HPSA collection network, and **314,718** kilograms of Pharmaceuticals were collected.
- In 2023, **314,718** kilograms of Pharmaceuticals were safely disposed by Stericycle, ULC.

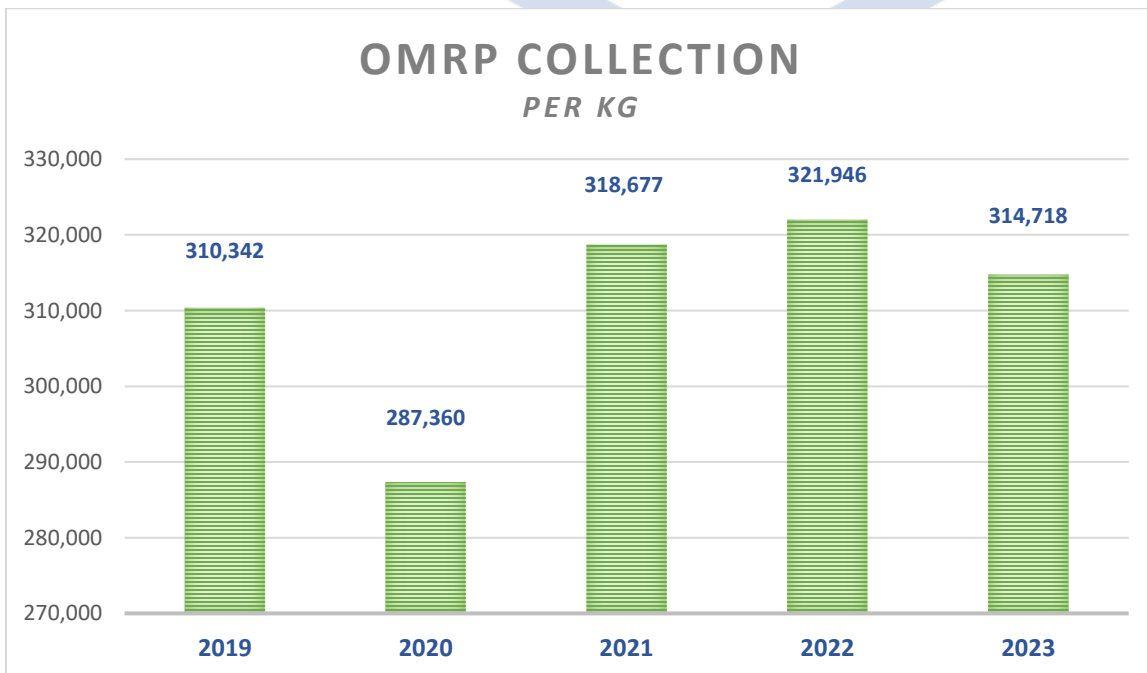

Table 1 - Program Performance – Report on Collection of Pharmaceuticals by Quarter in KG

3.3.2- Medical Sharps:

Section 9 (1) 3 - *The total weight of all of the following that was collected at the collection locations during the previous calendar year:*

- i. Sharps.*
 - ii. Containers described in paragraph 3 of subsection 3 (1).*
- In 2023, **691,631** HPSA branded medical sharp kits were supplied to HPSA collection network for distribution to the public at no cost, and a total **411,709** kilograms of Medical Sharps waste was collected for disposal by Stericycle, ULC. In April 2023, HPSA replaced its 4.25L medical sharps container with a 1.8L which allowed us to give more quantity to consumers. Containers are made of 89.8% of recycled materials.

SECTION IV: AWARENESS & INITIATIVES

4.1- HPSA Consumer Survey

During 2023, HPSA initiated its Bi-annual inquiry into consumer behavior, aiming to delve into the disposal methods adopted by Canadians for their surplus medications and used medical sharps. The study outcomes provided insightful revelations concerning consumer awareness, highlighting the subsequent findings:

- In Ontario, 58% of households with unwanted medications are informed about appropriate and safe disposal methods.
- 49% of households with unwanted medications know where to return them.
- Pharmacies serve as the primary information source, with 53% of individuals aware of disposal options learning about them from pharmacists or drugstores.

Additionally, younger Canadians display lower awareness levels compared to older demographics; 81% of individuals aged 55 and above are familiar with safe disposal methods, while only 50% of those aged 35-54 and 33% of those aged 18-34 demonstrate similar awareness.

The next HPSA consumer survey is scheduled for March 2025 and will be reported in the 2026 Annual Report.

4.2- Provincial and National Campaigns

Throughout 2023, HPSA strategized and implemented a series of nationwide and regional initiatives aimed at amplifying program awareness and participation. This section delves into select pivotal campaigns from the year. Earned outreach for all campaigns landed a total of **11 interviews**, resulting in 180 media placements across national English and French outlets and netting over **57 million impressions**.

Press release distribution for each campaign was also successful. Press releases were syndicated in a total of 468 outlets, generating over **177 million impressions** in English and French.

National Drug Drop Off Month

In recognition of National Drug Drop Off Month in August, HPSA partnered with Drug Free Kids (DFK) Canada to increase awareness among Canadian parents and other consumers about the proper disposal of unwanted medication.

HPSA commissioned an Angus-Reid Institute survey to provide insights around the issue and engaged strategic communications agency, Agnostic. The survey revealed a gap in understanding among our target audience, Canadian parents, when it came to the safest way to dispose of unwanted medication. These insights were localized to markets across Ontario and shaped campaign messaging.

- 70% of Canadian parents admit to leaving their medications in a place that is accessible by their children.
- 87% of Canadian parents do not consider the safe disposal of unwanted medications as essential.

Guided by survey insights, the campaign involved a three-pronged approach:

1. [Media release distribution](#)
2. Earned media outreach
3. Social media amplification

Campaign Performance

The volume of media attention generated by this campaign is an indicator of the sustained interest in the work of HPSA and DFK Canada in keeping Canadian households, communities, and our shared environment safe. Social media generated the following :

- 1- 28,756 Reach
- 2- 428 link click

“Awareness is the first step, and we’re glad to see from this survey that Canadian parents consider the safety of medications at home to be very important,” says Terri Drover, Director General, HPSA. - Terri Drover, Director-General, HPSA from [Newswire](#)

Diabetes Awareness month

During diabetes awareness month in November, HPSA has ran through a campaign destined to Diabetes patience to raise awareness on the importance of safely disposal of Sharps. The Campaign consisted of press releases in both English and French along with a Social Media Campaign.

Campaign Performance

- Press release published in News wire.
- Social Media Campaign

Conferences and Symposiums

To extend the knowledge to the industry experts and inform educational institutions on the OMRP and OSCP programs, HPSA participated in the following conference and symposiums. HPSA has taken part in various event intended to raise awareness to the public and to pharmacist in order to promote the program and increase engagement from the Collection Locations.

Panel Discussion - University of Toronto

HPSA participated in a virtual panel discussion hosted in December 2022 by the University of Toronto. The focus of the conversation was “environmental sustainability at pharmacies” and the event was attended by PharmD students and educators.

Panel Discussion – CAHI Annual convention

HPSA took part of Canadian animal health institute annual convention through a panel discussion about extended producer responsibility programs and stewardship. HPSA highlighted the importance of Take back programs for Pet owners and to promote such initiatives.

4.3- PUBLIC EDUCATION MATERIALS AND CAMPAIGNS

“How-to” Informational Assets for Pharmacists

HPSA conducted a survey on the pharmacists preferred educational assets. Based on the survey results, HPSA created a top 3 demanded assets: *How to dispose of medications and medical sharps posters*, *How to dispose of medications and medical sharps prescription bag stuffers and stickers*. Examples of the assets are provided in [Appendix 4](#).

In addition to these informational assets, all HPSA collection locations received various materials upon registration. These include:

- [A Pharmacist's Guide – Medications Return Program](#)
- [A Pharmacist's Guide – Sharps Collection Program](#)

Pharmacists were able to order promotional materials from HPSA at no additional cost.

“How-to” Consumer Videos

A pair of animated video guides were produced to explain the simple steps consumers can take to safely dispose of their unwanted medications and used sharps. The videos were shared on HPSA’s YouTube channel and can also be found on the “Consumer” page of the HPSA website. The video instructions are also screened at many pharmacies in Ontario. The “How-to” video could be found on HPSA’s webpage, under these links:

- [A guide to safely disposing of unwanted medications](#)
- [A guide to safely disposing of used medical sharps](#)

A. HPSA Website and Social Media Engagement

Each quarter, more than **15,000** visitors come to the HPSA website. The top keywords visitors search include: HPSA, sharps container, approved sharps container, and ‘can I return medication to pharmacy?’

The HPSA website is home to a wealth of information, including details about how and where consumers can bring their unwanted pharmaceuticals and used medical sharps. [An easy-to-use interactive map](#) prompts visitors to enter their postal code and the map displays nearby drop-off collection locations.

4.4- Social Media

In 2023, HPSA’s social media strategy continued to focus on delivering consistent, high-quality content to various audiences. This social media engagement took advantage of dynamic formats, such as video and audio. HPSA also designed content pillars to Spread awareness on the importance of the OMRP and OSCP.

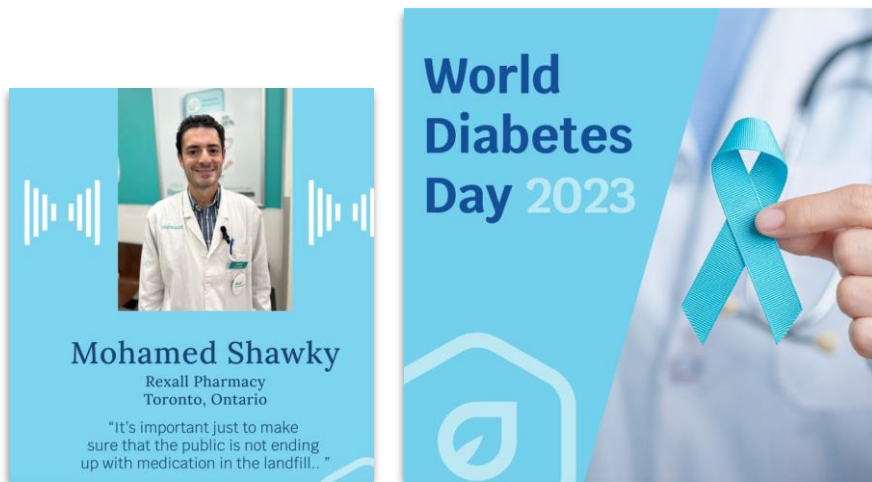

Social Channel Performance

- 2,931 engagements across Instagram, the consumer-oriented platform
- Average of 90% increase in followers

Notable Insights

- HPSA content continued to exceed industry benchmarks, surpassing average engagement rates across all channels.
- Consistent content led to a significant increase in engagement on Facebook and LinkedIn. Meanwhile, highly visual content and carousel/video formats encouraged higher levels of engagement on Instagram.
- Targeted posts per province
- Posts promoting an upcoming panel or speaking engagement earned the highest level of engagement on LinkedIn.
- Content featuring HPSA executives yielded the highest engagement on Facebook.

Paid Social Media Campaigns

In addition to organic (unpaid) social media content, HPSA paid to promote select posts on Facebook, LinkedIn, and Instagram over the year. This included during campaign periods and top awareness moments, such as National Drug Drop Off Month and Earth Day.

Paid social media promotion is a powerful tool to expand HPSA audience and strategically target people based on their geography, demographic, or other qualifiers, such as whether they are parents.

Paid campaigns included:

- **World Water Day:** To commemorate World Water Day, HPSA published content related to the importance of keeping waterways clean. This includes providing consumers with the resources and information needed to dispose of unwanted medications and used medical sharps safely.
- **Region-Specific Data:** Leveraging data collected from Ontario, and other provinces videos were shared on HPSA's social channels to highlight the impact of returned medications and used medical sharps on the environment and the continued importance on keeping their communities and waterways clean. The content, tailored to each province, was boosted on Instagram to create greater visibility and awareness of HPSA take-back programs

SECTION V - AUDITOR'S REPORT

Section 9 (3) – *The report shall include an opinion from a licensed public accountant confirming the accuracy of...
(b) in the case of a report prepared on behalf of more than one producer, the information referred to in paragraphs 2 and 3 of subsection (2), other than the information referred to in paragraphs 5 and 6 of subsection (1).*

A full report from a licensed public accountant is included in Appendix 3 confirming the accuracy as per (b) above.

As per Section 9 (4) of the Regulation, the 2023 Annual Report will be posted on the HPSA website **there**.

Appendix 3 – Auditor's Report (Opinion from a Licensed Public Accountant)

INDEPENDENT PRACTITIONER'S REASONABLE ASSURANCE REPORT ON PARAGRAPHS 1, 2 AND 3 OF SUBSECTION 9 (1) OF THE ONTARIO REGULATION 298/12

To the Ministry of the Environment, Conservation and Parks

We have undertaken a reasonable assurance engagement of the Health Products Stewardship Association management's accompanying statement for the year ended December 31, 2023, comprising the information required by paragraphs 1, 2 and 3 of subsection 9 (1) of the Ontario Regulation 298/12 with respect to the responsibilities of producers arising from the collection of pharmaceuticals and sharps.

Management's Responsibility

Management is responsible for the preparation of the statement comprising the information required by paragraphs 1, 2 and 3 of the subsection 9 (1) in accordance with applicable criteria set out in Note 1 of this report. Management is also responsible for selecting the applicable criteria used. This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation of a management statement that is free from material misstatement, whether due to fraud or error.

Our Responsibility

Our responsibility is to express a reasonable assurance opinion on the management statement based on the evidence we have obtained. We conducted our reasonable assurance engagement in accordance with Canadian Standard on Assurance Engagements 3000, *Attestation engagements other than audits or reviews of historical financial information*. This standard requires that we plan and perform this engagement to obtain reasonable assurance about whether the management statement is free from material misstatement.

Reasonable assurance is a high level of assurance, but is not a guarantee that an engagement conducted in accordance with this standard will always detect a material misstatement when it exists. Misstatement can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the decisions of users of our report. The nature, timing and extent of procedures selected depend on our professional judgment, including an assessment of the risks of material misstatement, whether due to fraud or error, and involve obtaining evidence about the preparation of the management statement in accordance with the applicable criteria.

A reasonable assurance engagement also includes assessing the suitability in the circumstances of management's use of applicable criteria, applied as explained in Note 1 of this report, as the basis for preparing information required by paragraphs 1, 2 and 3 of the subsection 9 (1); evaluating the appropriateness of quantification methods and reporting policies used, and the reasonableness of estimates made by management; and evaluating the overall presentation of the management statement.

Moore North America, Inc.
An independent member
of Moore North America, Inc.

We believe the evidence we obtained is sufficient and appropriate to provide a basis for our qualified opinion. Relevant information required by paragraphs 1, 2 and 3 of the subsection 9 (1) is set out in the management's accompanying statement.

Our Independence and Quality Control

We have complied with the relevant rules of professional conduct / code of ethics applicable to the practice of public accounting and related to assurance engagements, issued by various professional accounting bodies, which are founded on fundamental principles of integrity, objectivity, professional competence and due care, confidentiality and professional behaviour.

The firm applies Canadian Standard on Quality Management 1, Quality Management for Firms that Perform Audits or Reviews of Financial Statements, or Other Assurance or Related Services Engagements, which requires the firm to design, implement and operate a system of quality management, including policies or procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements.

Basis of Qualified Opinion

As discussed in Note 1 to the management statement, quantification is subject to inherent limitation because our assessment of the total weight of all of the pharmaceuticals and sharps that were collected at the collection locations and the total weight of the pharmaceuticals and sharps that were incinerated is strictly based on the information provided by the collection service providers.

Qualified Opinion

In our opinion, except for the effects of the matters described in the Basis for Qualified Opinion paragraph, the management statement for the year ended December 31, 2023, is prepared, in all material respects, in accordance with the applicable criteria.

Purpose of Statement

The management statement has been prepared to report to the Ministry of the Environment, Conservation and Parks and is not intended to be and should not be used for any other purpose.

HEALTH PRODUCTS STEWARDSHIP ASSOCIATION

NOTE

DECEMBER 31, 2023

3

1. MANAGEMENT STATEMENT

The following steps were applied to the assessment of the location of collection facilities, in accordance with the Act.

- From the Ontario College of Pharmacist Website, we verify the status of each of the Collection Facilities of the Association. We confirm that all the Collection Facilities are eligible as at December 31, 2023;
- The Association's listing stated 4,414 pharmacy collection locations in Ontario;
- The Association confirms the number of Collection Facilities published on the Ministry of the Environment, Conservation and Parks Website. The number of Collection Facilities is 4,829;
- Therefore, as of December 31, 2023, 91.4% of eligible pharmacy collection locations in Ontario are registered with the Association.

The following steps were applied to the assessment of the total weight of all of the pharmaceuticals and sharps that were collected at the collection locations during the year ended December 31, 2023.

- Upon reception of monthly invoices from collection service providers (Stericycle), the following data is recorded in CRM software:
 - a. Invoice number;
 - b. Date of service;
 - c. Manifest number (BOL) that confirms that the collection service was rendered;
 - d. Name of site service;
 - e. Location of the collection service;
 - f. Quantity of items collected;
 - g. Description of what was collected (Rx/Sharps);
 - h. Total weight collected for each item;
- Using the CRM software, the Association generates a report indicating the total weight collected by province for a specific period;
- In 2023, a total of 314,718 kilograms of pharmaceutical waste was collected at the collection locations;
- To confirm total weight collected, the Association compares weight collected from Stericycle with disposal charges (incineration) provided by Stericycle. In 2023, a total of 411,709 kilograms of sharp waste was collected at the collection location;

As established by management, there is an unavoidable risk of material misstatements due that we consider it impractical to introduce surveillance controls on the data produced by the collection service providers (Stericycle) and on their control activities. Our statement on the total weight of pharmaceutical waste and sharps waste is strictly based on the information provided by the collection service provider.

How Consumers Can Return Unwanted Medications

Step 1

Identify unwanted medications by checking the expiry dates and consulting with your doctor. Always ensure your medications are stored in a locked area.

Step 2

Transfer medications such as tablets into a clear bag but keep liquids and creams in their original containers while removing your personal information. Do not mix sharps and medications.

Step 3

Find a local participating pharmacy on the Drop-Off Location Map.

Let's build a healthier and safer environment together.

How Consumers Can Return Used Medical Sharps

Step 1

Pick up a sharps container from your local participating pharmacy (subject to availability) or purchase one from a retailer.

Step 2

After use, place used medical sharps in the provided container, ensuring the stack of sharps stay below the lid closure line.

Step 3

Permanently close the container following the instructions and return it to the pharmacy.

Let's build a healthier and safer environment together.
