

# MEDICATIONS RETURN PROGRAM (MRP) INSTRUCTION SHEET

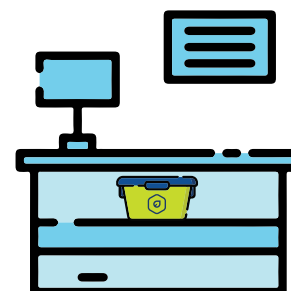

## 1 What comes in the set?

- 1 olive-green bin with an HPSA logo
- 1 flat blue lid
- 1 blue liner
- 2 zip ties

## 2 How to set up the HPSA bin?

- The bin should be stored in an access-controlled and secured area behind the counter
- Use the blue liner to line the bin

## 3 What is accepted?

- Accept only consumer-returned medications
  - DO NOT DENATURE THE MEDICATIONS
  - Do not put medical sharps in the bin
  - All patients' personal information from returned unwanted medication containers (liquids, creams, or containers with residue) must be blacked out or removed
- Place all consumer medication returns directly into the lined bin
  - Liquids, creams and powders stay in their original containers, to eliminate mess
  - Pills, tablets and other medications should be in a sealed bag, to protect your hands
  - A maximum of 15 inhalers can be placed in the bin
  - Paper boxes and other packaging should be recycled by the patient
- Visit the [CL Portal](#) for additional program resources

## 4 How to prepare a bin for a pick up?

- Secure the liner by tying it closed once the bin is full (max. 23 kg or 50 lbs)
- Apply firm pressure to the lid until the seal is formed
- Using the provided zip ties, weave each hole at the handles and lock the ties into place
- DO NOT OVERFILL (max. 23 kg or 50 lbs)
