- ✗ Biomedical or anatomical waste
- ✗ Medical sharps, syringes, needles
- ✗ Empty pill bottles or other containers

Important Notice:

Please take note of the following guidelines when accepting medications returns from patients:

- Make sure all liquids, creams, and powders remain in their original containers. The Medications Return Containers should not have any loose liquids or powders.
- Ask consumers to remove or cover any personal information before returning the medications.
- Narcotics and controlled substances should not be denatured prior to placing them in the Medications Return Container.
