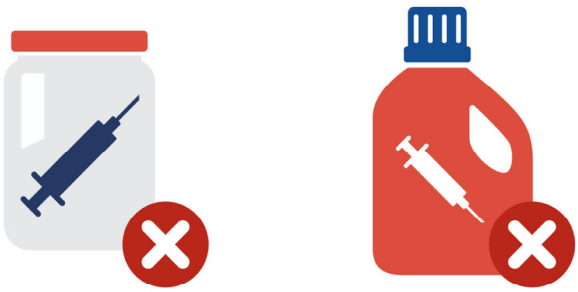
For pharmacies participating in HPSA's Sharps Collection Program

Medical Sharps Containers What is Accepted?

Any hard shell plastic container that is leak and tamper-resistant, **labelled with the universal biohazard symbol** and is designed to hold needles and other medical devices containing a medical sharp.

What is not Accepted?

Any non-conforming container such as bottles, tin cans, and laundry detergent containers.



Reminder: Medical sharps containers from all consumers, including non-pharmacy patients, should be accepted. The program is for members of the public self-treating at home; no return from institutions (tattoo parlours, clinics, salons) is accepted under the program.
