Acronyms and Definitions

Collection Locations	Community pharmacies registered with HPSA to collect unwanted Pharmaceuticals and used Medical Sharps returned by the public.
Member	A producer who is a member of HPSA.
Medical Sharps	<i>Ont. Reg. 298/12</i> - "A needle, safety engineered needle, lancet or other similar instrument that is designed to puncture the skin of individuals or companion animals for medical purposes and that is sold to consumers in Ontario, whether it is sold by the producer of the sharp or by any another person, and includes anything affixed to the sharp, including a syringe."
OMRP	Ontario Medications Return Program
OSCP	Ontario Sharps Collection Program
Pharmaceuticals	Pharmaceuticals include prescription drugs, non-prescription drugs, and natural health products. <i>Ont. Reg. 298/12</i> - "A drug within the meaning of section 2 of the <i>Food and Drug Act</i> (Canada) that is sold to consumers in Ontario, whether it is sold by the producer of the pharmaceutical or by another person and includes a natural health product within the meaning of the <i>Natural Health Products Regulations</i> made under that Act."
Producer	The producer of a pharmaceutical or sharp is: <ul style="list-style-type: none"> (a) the manufacturer of the pharmaceutical or sharp, if it is sold to consumers in Ontario under a brand that the manufacturer owns, licenses or otherwise has rights to; (b) if there is no person described in clause (a), the owner or licensee of the brand or the person who otherwise has rights to the brand under which the pharmaceutical or sharp is sold to consumers in Ontario; (c) if there is no person described in clause (a) or (b), the importer of the pharmaceutical or sharp into Ontario; or if there is no person described in clause (a), (b), or (c), the first person who sells the pharmaceutical or sharp to another person in Ontario.

Regulation

Ontario Regulation 298/12

Collection of Pharmaceuticals and Sharps – Responsibilities of Producers Environmental Protection Act

Message from the CEO

Dear Stakeholders,

Protecting public health, safeguarding communities, and reducing environmental risk depend on stewardship systems that Canadians can trust. At the Health Products Stewardship Association (HPSA), those commitments define our role. As a trusted stewardship organization, HPSA works on behalf of pharmaceutical producers to ensure that health products used in Canadian homes are managed safely and responsibly at end of life—supporting both environmental protection and public safety.

In Ontario, HPSA delivers this mandate through the Ontario Medications Return Program (OMRP) and the Ontario Sharps Collection Program (OSCP), which it has administered since regulation Ontario Regulation 298/12 came into force.

2025 also marked HPSA 25th year as leader in extended producer responsibility (EPR) programs for health products and we continue to remain focused on delivering stewardship programs that are compliant, accessible, and efficient on behalf of **175** medications producers and **56** Medical sharps producers.

Collaboration with pharmacies, banners, and other health partners remains central to ensuring broad program reach across Ontario’s urban, rural, and remote communities. In 2025, our network expanded to 4,666 Collection locations, equaling a participation rate of **94.6% (2 % increase as compared to 2024)**. In 2025, HPSA collected and disposed **313,709.4 kilograms** of unwanted medications under the OMRP and **425,271 kilograms** of used medical sharps under the OSCP. HPSA could not have achieved those results without the collaborative efforts of our collection locations.

Public education and awareness remain critical drivers of behavior change. Consumer research shows encouraging progress in awareness levels reaching 79% for Ontarians, while reinforcing the importance of sustained education efforts to close the gap between knowing what to do and taking action.

As a stewardship organization, HPSA is committed to not just being compliant but also forward-looking and outcomes-focused. Innovation, collaboration, and continuous improvement remain essential to delivering effective, efficient and resilient stewardship systems.

Sincerely,

Delphine Lagourgue,

Chief Executive Officer Health Products Stewardship Association

Section I: Overview of HPSA

The Health Products Stewardship Association (HPSA) operates free take back programs for the safe disposal of unwanted medications and/or used sharps in the provinces of Ontario, British Columbia, Manitoba, New Brunswick, Quebec and Prince Edward Island. In addition to helping producers fulfill their stewardship obligations, we educate consumers on how to practice safe disposal to strengthen ties across communities and industry.

1. 2025 Achievements

In 2025, HPSA continued to advance its mandate to both collect unwanted medications and medical sharps and promote safe and responsible disposal across Ontario. Through the Ontario Medications Return Program (OMRP) and the Ontario Sharps Collection Program (OSCP), HPSA ensures residents have access to convenient, no-cost collection options while supporting public health and environmental protection.

In partnership with retail pharmacies across the province, HPSA collected **313,709.4 kg** of unwanted medications under OMRP and **425,271 kg** of used medical sharps under OSCP. These materials were collected through **4,666 participating pharmacy locations**, providing accessible return opportunities in communities throughout Ontario. Alongside its collection activities, HPSA continued to deliver public education and outreach initiatives designed to increase awareness of available take-back programs and reinforce proper disposal practices.

In 2025, HPSA introduced new 5-litre medical sharps containers to better serve patients who frequently use sharps in the home. The larger-capacity containers provide a practical and convenient solution for ongoing medical needs, supporting safer storage and return while improving accessibility for program participants.

HPSA also rolled out enhanced medication return totes equipped with innovative one-way entry lids. The new lids are designed to prevent the retrieval of returned materials, reducing the potential for accidental poisoning, misuse, and diversion. Their opaque and tamper-resistant construction protects consumer privacy and deters interference at collection sites. Manufactured from durable, recyclable materials and compatible with various medication formats, including pill bottles and blister packs, the lids support hygienic, secure, and environmentally responsible disposal.

These enhancements reflect HPSA's continued leadership in strengthening safe end-of-life product management and improving the effectiveness and integrity of Ontario's medication and sharps collection programs.

Section II: Overview of HPSA

1. Members' Overview

HPSA's registered members for 2025 are comprised of **175** Producers for the OMRP and **56** for the OSCP.

2. 2025 HPSA Members

Section 9 (2) 1 – *The name of each producer on whose behalf the report is prepared.*

- The list of producers/members for the OMRP is attached in [Appendix 1](#).
- The list of producers/members for the OSCP is attached in [Appendix 2](#).
- Under Regulation 298/12, Producers are required to have a link on their website that takes consumers to the HPSA website where information on the OSCP and OMRP can be found. A list of HPSA producer/member website links can be found in [Appendix 3](#).

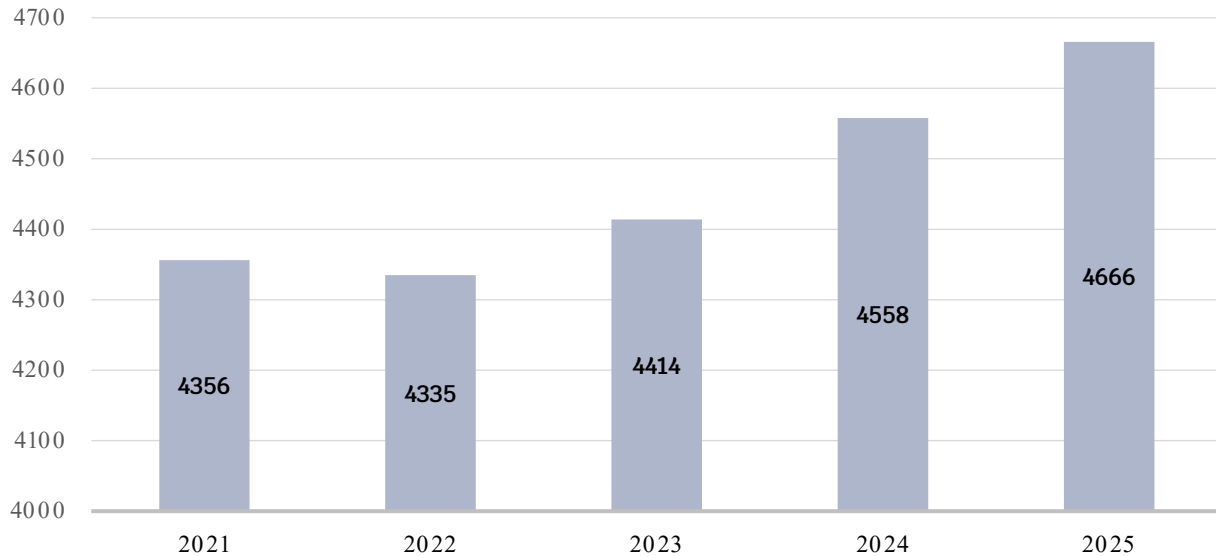

Section III: Programs

1. Overview of the Collection Locations

Section 9 (2) 2 – *The number of collection locations and the location of each of the collection locations at which collection of the designated material of the producers was provided for by all of the producers and a description of any changes that occurred with respect to the number and location of collection locations from the previous calendar year.*

- Collection sites for both the OMRP and the OSCP are community pharmacies (listed in [Appendix 4](#)).
- Each HPSA collection site has signed a Collection Location Agreement (CLA), detailing procedures for collection, handling and storage of unwanted Pharmaceuticals and used Medical Sharps received from the public.
- In accordance with Section 4 of the Regulation, HPSA ensured that the number of collection locations is at minimum equal to 90% of retail pharmacies in Ontario, as of October 1 in the preceding calendar year.
- The Ministry of the Environment Conservation and Parks website posted **4,930** as the number of registered pharmacies that were eligible to participate in the OSCP and OMRP.
- As of December 31, 2025, **4,666** active pharmacy collection locations in Ontario were registered with HPSA and had returned designated materials in the last 12 months.
- In the previous calendar year, the number of registered and active retail pharmacies participating in HPSA's stewardship programs was **4,558**. 2025 saw an increase of **108** retail pharmacies participating in the HPSA programs over the previous year.
- The participation rate of total eligible collection locations in both programs in Ontario was **94.6%** at the end of 2025.

Pharmacy Participation

Section 9 (1) 6 - A description of any actions taken by the producer during the previous calendar year that exceeded the actions required for the purposes of section 4, in order to provide for the collection of the designated material of the producer.

Throughout the year, HPSA contacts non-registered eligible retail pharmacies to introduce the OMRP and the OSCP.

A full list of collection locations can be found in [Appendix 4](#).

Section 4.3 - A producer of a pharmaceutical or sharp shall ensure that at each collection location at which the producer provides for collection of the designated material of the producer, the collection is:

- a) available free of charge to consumers;
- b) not subject to any limitations with respect to the quantity of the designated material of the producer that a consumer may bring for collection; and
- c) if the collection location is in a pharmacy in respect of which a certificate of accreditation is in effect under section 139 of the Drug and Pharmacies Regulation Act, available during the business hours of the pharmacy.

Below are the steps to become a HPSA Collection Location

- Pharmacies sign an agreement outlining procedures for the collection, handling, and storage of pharmaceuticals and medical sharps received from the public.
- Collection Location Agreements submitted by pharmacies are approved within 10 business days.
- Once accepted as a registered collection location, pharmacy staff review HPSA guidelines and are provided with public educational assets on the proper disposal of unwanted medications and used medical sharps. Pharmacies also have access to FAQ Pharmacists pages on HPSA's website.
- HPSA delivery and pickup services are provided to all registered collection locations and the public at no cost.

2. Overview of the Collection and Disposal Process

[Section 9 \(1\) 4](#) - *A description of how the designated material of the producer collected at collection locations was handled and how it was disposed of during the previous calendar year.*

Ontario Medications Return Program (OMRP)

- Unused and/or expired Pharmaceuticals returned by the public and collected through the OMRP are dropped in lined, reusable 60L pharmaceutical HPSA branded waste containers (MRP containers) with one-way entry lids at the collection locations (behind the pharmacy dispensary). When ready for shipment, pharmacy staff tie off the container liner, secure a transportation lid to the base and arrange for shipment. The service provider contracted by HPSA (Stericycle, ULC) transports the waste to an HPSA-approved disposal site where the Pharmaceuticals are incinerated.
- Once emptied, the MRP containers are cleaned and inspected for reuse. If a container is broken or has been deemed structurally unsound, it is recycled into plastic pellets.
- Stericycle, ULC, manages the disposal facility.

Ontario Sharps Collection Program (OSCP)

- Used biomedical sharps collected through the OSCP are received from consumers in sharps containers labelled with a biohazard symbol. At the collection location, these sharps containers are packaged in secondary containment packaging (i.e., a corrugated cardboard box with the universal biohazard symbol on the outside) that is lined with a 2 mm plastic bag. When ready for shipment, pharmacy staff tie off the box liner, seal the box and arrange for shipment. The service providers contracted by HPSA (Stericycle, ULC) transport the boxes of biomedical sharps to an HPSA-approved disposal site where the return boxes and the medical sharps containers containing biomedical sharps are autoclaved. The approved facility that handles sharp autoclaving is managed by Stericycle, ULC.

- Used cytotoxic sharps collected through the OSCP are received from consumers in sharps containers. At the collection location, these sharps containers are packaged in lined, corrugated cardboard boxes with cytotoxic labelling on the outside. When ready for shipment, collection locations tie off the box liner, seal the box and arrange for shipment. The service providers contracted by HPSA (Stericycle, ULC) transport the boxes of cytotoxic sharps to an HPSA approved disposal site where the return boxes and the medical sharps containers containing cytotoxic sharps are incinerated. The disposal facility is managed by Stericycle, ULC.

3. 2025 Collections

3.3.1 - Pharmaceutical collections:

Section 9 (2) 3 - The total weight of all of the following that was collected at the collection locations during the previous calendar year:

- Pharmaceuticals.
- Containers described in paragraph 3 of section 2, excluding any containers that were recycled.

- In 2025, a total of **28,369** MRP containers were supplied to the HPSA collection network, and **313,709** kilograms of Pharmaceuticals were collected.
- In 2025, **313,709** kilograms of Pharmaceuticals were safely disposed by Stericycle, ULC.

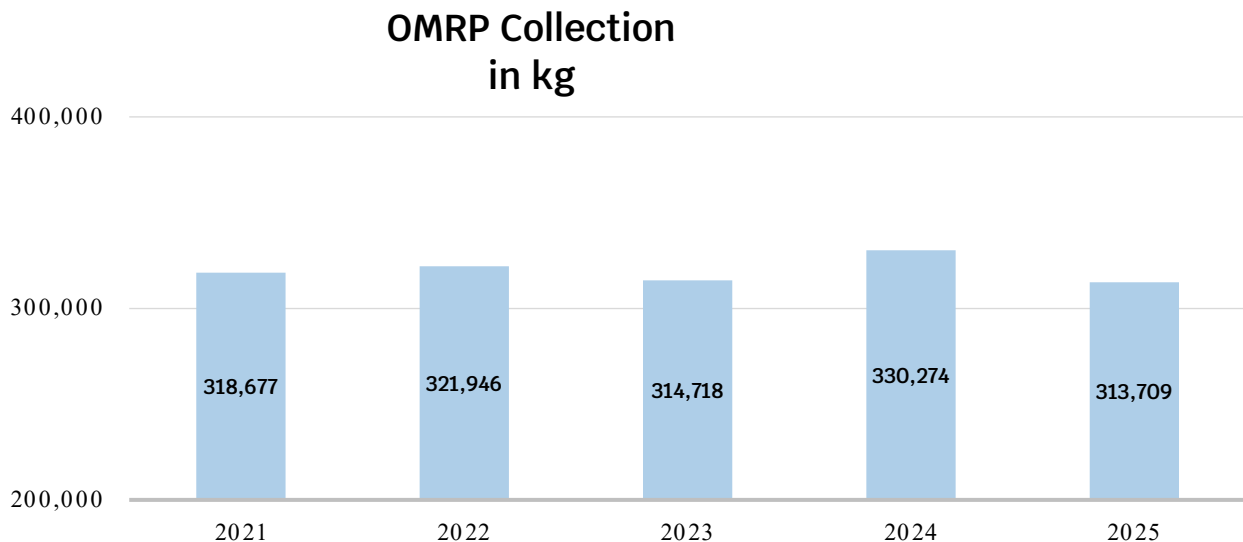

Table 1 - Program Performance – Report on Collection of Pharmaceuticals by Quarter in kg

REGIONS	Number of Sites	Q1 (kg)	Q2 (kg)	Q3 (kg)	Q4 (kg)	2025 Total

Section IV: Awareness & Initiatives

Provincial and National Campaigns

In 2025, HPSA developed and executed a range of nationwide and regional initiatives to boost program awareness, education, and engagement. This section highlights key campaigns from the year. Through earned outreach efforts, these campaigns secured more than 8 million impressions and reached more than 767,000 individuals in Ontario.

Don't Dump Drugs

In 2025, HPSA launched the Don't Dump Drugs campaign in Ontario to promote the safe and environmentally responsible disposal of unused or expired medications and medical sharps. The campaign targeted adults aged 18 and older and used a multi-channel approach to build awareness across the province.

High-visibility placements were prioritized to reach Ontarians in their daily environments, including billboards along the Gardiner Expressway at Exhibition Place and near Toronto Pearson International Airport, as well as print, audio out-of-home, and digital advertising across major urban centres. Print advertisements were placed in magazine and newspaper inserts distributed in Toronto, Ottawa, London, and Windsor.

Overall, the campaign generated more than 8.5 million impressions across media channels, helping increase public awareness and encouraging residents to dispose of medications and medical sharps responsibly.

Together for Safer Homes Campaign – Drug-Free Kids (now Substance)

HPSA supported the Together for Safer Homes campaign to raise awareness of youth substance use, promote harm reduction, and encourage the safe disposal of unused or expired medications.

The initiative included a six-week in-store radio campaign at Shoppers Drug Mart locations across the province, a national webinar for parents on youth substance use and prevention, and community Take-Back Day activation events in partnership with Rexall pharmacies. The campaign was further amplified through a national press release and media coverage, including an interview with OMNI City News Toronto.

HPSA 25th Anniversary

To mark HPSA's 25th anniversary, an integrated awareness campaign showcased the organization's leadership in the safe disposal of unwanted medications and used medical sharps. The campaign included digital advertising, national media outreach, a Take-Back Day with Pharmasave, a commemorative video, and tree plantings recognizing 40 long-standing collection locations that have been with HPSA since inception.

Conferences and Symposiums

Speaking Engagement – Diabetes Canada

HPSA delivered an awareness session at a Diabetes Canada family camp on the importance of safely disposing of medical sharps and medications to help protect families and the environment. This engagement was supported by a joint digital and email marketing campaign, along with social media content and a blog post on the HPSA website as part of the collaboration.

Shoppers Drug Mart and ONPharm

HPSA participated in the Shoppers Drug Mart Conference West, engaging pharmacists on safe disposal practices, including discussions on the 5L medical sharps container and the new one-way entry lid. HPSA also participated in the ONPharm conference with an interactive booth, engaging healthcare providers and pharmacists to promote awareness and best practices in safe medication disposal.

Social Media and Website

In 2025, HPSA strengthened its digital presence to increase awareness of safe medication and sharps return programs. Paid digital advertising played a key role in expanding reach and promoting key initiatives, generating more than 6.7 million impressions.

HPSA's website recorded over 88,000 visits, with more than 30,000 users searching for a collection location. To further improve accessibility, the website was enhanced with a new interactive geolocator map, making it easier for residents to find nearby return locations.

HPSA Consumer Survey 2025

HPSA conducted consumer awareness studies in 2021, 2023, and 2025 to assess behaviors related to the safe disposal of medications and medical sharps. The 2025 results showed that 64% of Canadians correctly identified collection locations as the proper disposal method, with awareness rising to 81% among those aged 55 and older. In 2025, awareness of collection locations increased, with 62% of consumers knowing where to return used medical sharps and 49% knowing where to return unwanted medications, up from 57% and 47% respectively in 2023. These upward trends demonstrate the sustained impact of HPSA's outreach and education efforts, reflecting growing public understanding of safe disposal practices and reinforcing the effectiveness of continued awareness initiatives.

Pharmacy Student Perspectives on Medication and Sharps Take-Back Programs

A survey of 105 pharmacy students affiliated with Canadian Association of Pharmacy Students and Interns (CAPSI) assessed their awareness and understanding of medication and medical sharps return programs based on their pharmacy internship experiences. Results showed that 52% of respondents were aware of take-back programs, while 78% strongly agreed that these programs are important for health and safety.

Based on this, HPSA will continue to collaborate with CAPSI to further educate and engage future pharmacists, strengthening their understanding of medication and medical sharps return programs.

Educational Guides

HPSA enhanced its educational assets to ensure users can easily access vital resources and information. The updated guides now offer a more streamlined and informative layout, featuring direct links to educational videos, collection location maps, and other materials available on the HPSA website. These resources are designed to provide clear, step-by-step guidance on the safe disposal of medications and medical sharps, as well as other critical topics. The updates aim to improve consumer knowledge and foster greater participation in safe disposal practices.

Appendix 5: Promotion and Education

 **HEALTH PRODUCTS**
STEWARDSHIP ASSOCIATION
ON BEHALF OF PHARMACEUTICAL MANUFACTURERS AND DISTRIBUTORS

30% 30% of Canadians live with diabetes or prediabetes.

Managing this disease often involves the use of medical sharps and medications, which comes with the responsibility of safe disposal.

That's where the Health Products Stewardship Association (HPSA) comes in. 

We're committed to educating Canadians on safe disposal.

Follow HPSA to learn more about how to safely dispose of your medications and medical sharps to create a safer and cleaner environment.

Safety tip!

Prioritize your family's health by preventing opioid misuse.

 **Return them safely to a collection location.**

Appendix 6: Auditor's Report

INDEPENDENT PRACTITIONER'S REASONABLE ASSURANCE REPORT ON PARAGRAPHS 1, 2 AND 3 OF SUBSECTION 9 (1) OF THE ONTARIO REGULATION 298/12

To the Ministry of the Environment, Conservation and Parks

We have undertaken a reasonable assurance engagement of the Health Products Stewardship Association management's accompanying statement for the year ended December 31, 2025, comprising the information required by paragraphs 1, 2 and 3 of subsection 9 (1) of the Ontario Regulation 298/12 with respect to the responsibilities of producers arising from the collection of pharmaceuticals and sharps.

Management's Responsibility

Management is responsible for the preparation of the statement comprising the information required by paragraphs 1, 2 and 3 of the subsection 9 (1) in accordance with applicable criteria set out in Note 1 of this report. Management is also responsible for selecting the applicable criteria used. This responsibility includes the design, implementation and maintenance of internal control relevant to the preparation of a management statement that is free from material misstatement, whether due to fraud or error.

Our Responsibility

Our responsibility is to express a reasonable assurance opinion on the management statement based on the evidence we have obtained. We conducted our reasonable assurance engagement in accordance with Canadian Standard on Assurance Engagements 3000, *Attestation engagements other than audits or reviews of historical financial information*. This standard requires that we plan and perform this engagement to obtain reasonable assurance about whether the management statement is free from material misstatement.

Reasonable assurance is a high level of assurance, but is not a guarantee that an engagement conducted in accordance with this standard will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the decisions of users of our report. The nature, timing and extent of procedures selected depend on our professional judgment, including an assessment of the risks of material misstatement, whether due to fraud or error, and involve obtaining evidence about the preparation of the management statement in accordance with the applicable criteria.

A reasonable assurance engagement also includes assessing the suitability in the circumstances of management's use of applicable criteria, applied as explained in Note 1 of this report, as the basis for preparing information required by paragraphs 1, 2 and 3 of the subsection 9 (1); evaluating the appropriateness of quantification methods and reporting policies used, and the reasonableness of estimates made by management; and evaluating the overall presentation of the management statement.

 **MOORE**
Un membre indépendant de
Moore North America, Inc.
An independent member
of Moore North America, Inc.

We believe the evidence we obtained is sufficient and appropriate to provide a basis for our qualified opinion. Relevant information required by paragraphs 1, 2 and 3 of the subsection 9 (1) is set out in the management's accompanying statement.

Our Independence and Quality Management

We have complied with the relevant rules of professional conduct / code of ethics applicable to the practice of public accounting and related to assurance engagements, issued by various professional accounting bodies, which are founded on fundamental principles of integrity, objectivity, professional competence and due care, confidentiality and professional behaviour.

The firm applies Canadian Standard on Quality Management 1, Quality Management for Firms that Perform Audits or Reviews of Financial Statements, or Other Assurance or Related Services Engagements, which requires the firm to design, implement and operate a system of quality management, including policies or procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements.

Basis of Qualified Opinion

As discussed in Note 1 to the management statement, quantification is subject to inherent limitation because our assessment of the total weight of all of the pharmaceuticals and sharps that were collected at the collection locations and the total weight of the pharmaceuticals and sharps that were incinerated is strictly based on the information provided by the collection service providers.

Qualified Opinion

In our opinion, except for the effects of the matters described in the Basis for Qualified Opinion paragraph, the management statement for the year ended December 31, 2025, is prepared, in all material respects, in accordance with the applicable criteria.

Purpose of Statement

The management statement has been prepared to report to the Ministry of the Environment, Conservation and Parks and is not intended to be and should not be used for any other purpose.

HEALTH PRODUCTS STEWARDSHIP ASSOCIATION

NOTE

DECEMBER 31, 2025

3

1. MANAGEMENT STATEMENT

The following steps were applied to the assessment of the location of collection facilities, in accordance with the Act.

- From the Ontario College of Pharmacist Website, we verify the status of each of the Collection Facilities of the Association. We confirm that all the Collection Facilities are eligible as at December 31, 2025;
- The Association's listing stated 4,666 pharmacy collection locations in Ontario;
- The Association confirms the number of Collection Facilities published on the Ministry of the Environment, Conservation and Parks Website. The number of Collection Facilities is 4,930;
- Therefore, as of December 31, 2025, 94.6% of eligible pharmacy collection locations in Ontario are registered with the Association.

The following steps were applied to the assessment of the total weight of all of the pharmaceuticals and sharps that were collected at the collection locations during the year ended December 31, 2025.

- Upon reception of monthly invoices from collection service providers (Stericycle), the following data is recorded in CRM software:
 - a. Invoice number;
 - b. Date of service;
 - c. Manifest number (BOL) that confirms that the collection service was rendered;
 - d. Name of site service;
 - e. Location of the collection service;
 - f. Quantity of items collected;
 - g. Description of what was collected (Rx/Sharps);
 - h. Total weight collected for each item;
- Using the CRM software, the Association generates a report indicating the total weight collected by province for a specific period;
- In 2025, a total of 313,709 kilograms of pharmaceutical waste was collected at the collection locations;
- To confirm total weight collected, the Association compares weight collected from Stericycle with disposal charges (incineration) provided by Stericycle. In 2025, a total of 425,271 kilograms of sharp waste was collected at the collection location;

As established by management, there is an unavoidable risk of material misstatements due that we consider it impractical to introduce surveillance controls on the data produced by the collection service providers (Stericycle) and on their control activities. Our statement on the total weight of pharmaceutical waste and sharps waste is strictly based on the information provided by the collection service provider.
